Councillor Tonks questioned Mr. Perry as to when a junior - senior high school could be expected in District #13, and Mr. Perry answered that another junior high school was expected to be built within five (5) years in the Dartmouth suburban areas.

Deputy Warden Nicholson questioned Mr. Perry with regards to the adjusted program in the large high schools and the amount of time that the students had free which they spent apparently wandering around the school or on the school grounds with a problem of having no where to go unless they hitch hiked home.

Baker stated, however, that he was very disturbed in the manner in which a weekly paper named "The Fourth Estate" has published an article with regards to mental hospitals, and particularly the Halifax County Hospital. Councillor Percy Baker informed Council as to a number of inaccurate statements which had been reported in this article which was not based on fact, and which was very poor reporting.

Motion carried.

It was agreed by the Council for the brief to be duplicated and made available to the Councillors.

PROPOSAL FOR LISCOMB GAME SANCTUARY NATIONAL PARK IDEA

Reasons for the consideration of this plan:-

1. Central location between the existing National Parks in the Province with the attending advantages of not being over a days drive apart.
2. Access from four counties by location: the Sheet Harbour to New Glasgow road would run right through the center of the Park giving access from Halifax and Pictou Counties (Trans Canada near New Glasgow and No. 7 at Sheet Harbour). Also the road from Upper Stewicke and Dean going through to Trafalgar would make quick access from the Truro and Windsor areas in Colchester and Hants Counties. Then there would be the road from Melrose in through Caledonia to Trafalgar which would make access from Guysborough County. All these road exist at the present time and could be improved. Also new access road could be made in the future from, for instance, Fort Dufferin, Moser River, Liscomb, etc. The road from Sheet Harbour to New Glasgow could be rebuilt and paved, also the road from Dean through Trafalgar and Caledonia to Melrose.
3. This is a large relatively unspoiled area at the present time, having numerous lakes, rivers, brooks, etc. It could be enlarged to go to the coast leaving out the villages but incorporating several beaches in the area from Port Dufferin, Beaver Harbour area to the Liscomb area. The settlements along No.7 and could be left out of the Park area without being a detriment to it.
4. Politically: This is a have not area of the Province and the Counties. In this, I mean that the far end of Halifax County and that end of Guysborough Co. have very little in the way of industry, etc. Also, our member, Mr. Brown, could capitalize on the fact that the Park was not wholly in Halifax Co. Also he could elaborate on the fact that disruption of homes and people would be almost nil in that area in contrast to very serious disruption in the Lake Charlotte, Ship Harbour area. I cannot see but that this could be a great advantage to Mr. Brown politically. At the same time, the bulk of the Park would be in this riding with the advantages of same. Also pressure could be put to the Federal Government for assistance in the rebuilding of the Sheet Harbour to New Glasgow road as a cross country road servicing the National Park.

5. The Village of Sheet Harbour is large enough to provide services for people using the Park, and will in very few years be in a better position to do so as it is the largest center between Halifax-Antigonish. The National Park being that close could not help but benefit its growth. This Park area would also be near to the Historical Village at Sherbrooke which will be a valuable tourist attraction. The Park would not be over three hours drive from the Halifax-Dartmouth area, Truro-Shubenacadie area, Pictou-New Glasgow area, or the Antigonish - Port Hawkesbury area. There is the fish hatchery at Moser River and the salmon experiment at East River, Sheet Harbour which lend themselves to this idea.
6. One of the main assets or reasons for making a National Park in the Lake Charlotte area has been the beaches. I would suggest that there could be four small Provincial Parks established in the area at Lawrencetown, Martinique, Clam Harbour and Taylors Head. This would suffice for beach areas for our people plus tourists for many many years into the future. They would be administered by our own Government and our own people would get full benefit of employment in them. The potential of these areas are enormous if properly looked after.

Councillor Tonks questioned the Warden as to who was in charge of the Municipality of the County of Halifax, the Warden or Staff. Councillor Tonks stated that he had discussed with the Municipal Clerk a matter with regards to a loose dog which had been impounded by the Constable, and that the Municipal Clerk had hung up the telephone on him. Councillor Tonks stated that the dog in question had been picked up by the Constable after chasing the dog up and down the street for half an hour and that the Constable had been ordered by the Municipal Clerk to return the dog to the dog owner and that the owner in question had not paid the required ten dollar (\$10.00) fine.

Mr. Bensted advised Council that according to his information the dog in question had been picked up by the Constable on the owners property, although the dog had been running at large before that.

Mr. Hattie advised that in his opinion it was a judgement matter, and based on the information that he had received, he had ordered the Constable to return the dog. Mr. Hattie admitted that he had hung up the telephone on Councillor Tonks and had done so because of the Councillor being abusive on the phone.

Councillor Tonks questioned Mr. Cox, the Solicitor as to the dog bylaw and the matter of dogs being picked up by Constables on the owners property. Mr. Cox read a section of the dog bylaw in question, and stated that he felt that if the dog had been picked up on the owners property then the Constable was at fault, and that the dog should have been returned to the dog owner.

Councillor Slauenwhite, Councillor for the district, where the incident occurred, stated that he was familiar with the details and that he was satisfied that it was a judgement decision and that the proper action had been taken.

"THAT the Annual Session be adjourned until June 8th., 1971, at 10:00 A.M."
Motion carried.

Councillor Tonks wondered how long this adjournment and postponement was going to continue and it looked like an exercise in futility to attempt to get any co-operation from the Provincial Government before setting a tax rate. He felt that since the change in Government, the Province is tending to ignore Municipal Government and thinks there is no justification for Municipal Government in Nova Scotia and he tended to agree with it. He said that this Council is in a position where it cannot set a tax rate or come to any conclusion because it is being held back by the Province and if this was the way it is to be the Municipality might as well be turned over to the Province.

Deputy Warden Nicholson did not agree that this was a "do nothing" Council. He said that a tax rate could be set at \$2.79, but that Councillors did not feel was acceptable. He said that secondly they were asked by Council to have meetings in order to exhaust every possibility of getting more money and he did not think that all sources had been exhausted as yet and it would be worth the time even if they could save twenty cents (.20¢) or twenty-five cents (.25¢) on the tax rate.

On the motion - motion carried 13/1.

Solicitor Cox confirmed that this Committee did not have this power and could not add members of their own. If other people wished to visit Ocean View Manor, then it would be necessary for them to go through the Superintendent or the Acting Superintendent in the normal manner.

Councillor Jennex questioned the cutting out of the Adult Education Program and felt that this was a worthwhile program.

Councillor McCabe said he appreciated the concern of the Finance and Executive Committee, and Councillors with regards to the tax rate. He questioned, however, the effect of dropping the area Supervisors as to the overall effect on the education program. He requested other Councillors to state their views on this item.

Councillor Isenor stated that in reviewing the last six (6) years, with regards to tax increases, he felt that a twenty per cent increase (20%) was as heavy as the people could afford. He stated, however, that the Finance Committee had made every endeavour to reduce the tax increase to this percentage figure, but they had been unable to do so.

He stated that he felt that tax payers can only afford so much, and that they have got to try to keep within a reasonable budget.

Councillor Slauenwhite stated that he is not questioning so much the dropping of the area Supervisors, but he was wondering what would replace this supervision, and whether or not there might be some other increase in some other area.

Councillor Slauenwhite was advised in reply to his question that the Driver Education program did not cost the Municipality any dollars.

Deputy Warden Nicholson stated that he could not answer as to what the overall effect would be by dropping the area supervisors. He stated that the budget had to be cut in some area, and this seemed to be one of the best areas to start on.

Councillor Johnson questioned if there were to be no saving this year why this item was being cut out of the budget at this time.

Mr. Hattie explained that it would be necessary to make the budget cut now in order to affect any saving next year. We were all ready committed to the budget for January to September, and the savings for the balance of the year would be very small.

Councillor McCabe questioned as to whether we were getting into a second rate education program in comparison with adjoining Municipalities. He stated that if this reduction was made that there may have to be an increase in some other area. Councillor McCabe also stated that he was concerned with regards to the cutting of the maintenance budget, that it was false economy, and that at sometime in the future these items were going to have to be looked after.

Councillor Gaetz stated that he had discussed with a number of teachers the matter of area Supervisors, he stated that he felt that now the Municipality did not have permissive teachers, but only licensed teachers that there was less of a need for area supervisors then there had been in past years. He stated he also agreed with the Chairman of the Municipal School Board with regards to the maintenance program.

Councillor Tonks stated that there had been lots of discussion with regards to supervision. He stated that in his opinion there was a lack of supervision at the School, and that the problem lies with the teachers, not area supervisors.

Councillor Colin Baker complimented the Finance and Executive Committee on being able to hold the rate as much as they had.

Councillor Dunbar stated that the problem facing the Municipality was not strange, as the same problem was faced by all Municipalities in Nova Scotia. He stated that this had been building up over a period of years, and that the brakes should have been applied some years ago. He stated that the Finance and Executive Committee had put in a lot of work in going over the budget, and making the recommendations. He stated that the increase in the rate was not satisfying, but it was necessary. Councillor Dunbar stated that he felt that some pressure groups were always asking for some items regardless of the cost.

Councillor Snair agreed with the concern expressed by other Councillors with regards to the ability of tax payers to pay the increased rates.

The Warden called for a vote on the motion, which was carried.

It was moved by Deputy Warden Nicholson; seconded by Councillor Cleveland:-

"WHEREAS the Assessment Roll as finally passed by Council pursuant to the Assessment Act, less the amount of assessment represented by fixed taxes, amounts to \$215,932,025;

AND WHEREAS the Estimates of the Council show that the sum of \$9,104,357.23 is required for the lawful purposes of the Municipality Revenue from all sources, other than rates, is \$3,541,032.03 for the year, and after making due allowances for the abatement and losses which occur in the collection of rates and taxes for the current year, leaves a net requirement of \$5,563,325.20;

AND WHEREAS it is deemed that a rate of \$2.58 on the one hundred dollars of the assessed value of the property on the Assessment Roll, amounting to \$215,932,025. is sufficient to raise such sum required to defray the expenses of the Municipality for the current year;

THEREFORE BE IT RESOLVED that Council hereby levies and authorizes the collection of a rate of \$2.58 on one hundred dollars of the assessed value of the property assessed on the Assessment Roll for the current year."

Motion carried.

Mr. Hattie read the resolutions as passed at the Session.

It was moved by Deputy Warden Nicholson; seconded by Councillor Gaetz:-

"THAT the Minutes of today's Session be approved."

Motion carried.

It was moved by Councillor Tonks; seconded by Councillor Moser:-

"THAT the meeting adjourn."

Motion carried.

Council closed with the usual singing of "God Save the Queen."

REPORT OF THE MUNICIPAL COLLECTOR

To His Honor the Warden and Members of the Municipal Council.

Councillors:-

The tax levy for the year 1970 amounted to \$4,905,655.66.

Total tax collections for the year amounted to 97% of the levy and current taxes collected amounted to 82% of the levy. These figures compare favourably with previous years.

A total of Thirty-two (32) General Warrants were issued and served by our Constables during the year 1970. These Warrants covered Poll Tax and Personal Property accounts. Special attention is being paid to the collection of these accounts by the Collection Department and our two Constables.

Again in 1970 considerable work was applied to the collection of property tax arrears and preparing properties for Tax Sale. During the year, Nine (9) Tax Sales were held with One Hundred and Eighty properties being advertised. Of this number Eighty Nine (89) were sold at Public Auction. A number of these properties were put up for Tax Sale at the owners' request for the purpose of obtaining clear title to their property. We are getting more requests each year from property owners to have their property prepared for Tax Sale for this purpose.

From Tax Sales held during the year an amount of approximately \$32,000.00 was credited to lien law surplus account and if not paid out as a result of court orders will be available to the Municipality in five years' time for park purposes.

Deed Transfer Tax for the year 1970 amounted to \$106,168.07, an increase of \$12,462.00 over the previous year.

I would like to express my appreciation to the members of the staff of the Collection Department for their splendid co-operation and assistance.

Should any of the Councillors require information at any time concerning the Collection Department, I would be pleased to assist wherever possible.

Respectfully submitted,

Gerard J. Kelly
Municipal Collector
