J. B. JOHNSTON,

Clerk of Works.

CITY PRISON REPORT.

City Prison, Hallway, Oct. 2nd, 1883.

As a Chairman and Member of City Prison Committee, I have the honor to submit for the information of the City Council, my report on the City Prison and its management for the twelve months ending 31st of September, 1883.

The several tables appended to this report will show:

CITY PRISON REPORT.

1. The names and estimated value of the work performed by the prisoners.

2. The daily and weekly cost of maintenance of male and female prisoners.

3. The number and estimated value of the articles and necessaries in the Prison.

4. The number and estimated value of horses owned by the Prison.

5. The number and estimated value of farming implements owned by the Prison.

6. The number and estimated value of farming implements owned by the Prison.

7. The number and estimated value of stock raised by the Prison.

8. The estimated value of work and material in yards, shops and other buildings.

9. The quantity of crops raised.

Those tables are self-explanatory and do not require much comment.

Among the prisoners some had no two trades which labor cannot be turned to its advantage and thereby lessen the average earnings, while from others it is

CITY PRISON REPORT.

CITY PRISON, Halifax, Oct. 2nd, 1882.

To the Chairman and Members of City Prison Committee :

GENTLEMEN,—I have the honor to submit, for the information of the City Council, my report on the City Prison and its management for the twelve months ending 30th of September, 1882.

The several tables appended to this report will show :

1. The number of prisoners of both sexes, and the offences for which they were committed ;
2. The nature and estimated value of the work performed ;
3. The daily and yearly cost for maintenance of male and female prisoners ;
4. The quantity and estimated value of the articles and materials in the Prison ;
5. The number and estimated value of horses, carts, trucks, etc. ;
6. The number and estimated value of farming implements ;
7. The number and estimated value of stone shed implements ;
8. The estimated value of tools and material in workshops ; and,
9. The quantity of stone sold.

These tables are self-explanatory, and do not call for much comment from me.

Among the prisoners committed were two classes whose labor cannot be turned to much advantage, and therefore lessen the average earnings, while from other causes they

increase the average cost of maintenance. The classes I allude to are merchant sailors (sent up for ship desertion) and soldiers, both of which classes have had more than their average representation during the period now being reported upon. I make these observations without prejudice to the garrison or the mercantile marine, for on the whole I think that the soldiers, considering their numbers, and the virtually unlimited facilities they have for obtaining intoxicating liquors, are not more numerous represented than might reasonably be expected. The merchant sailors, as is well known, are invariably sent up for refusing duty at sea, or refusing to proceed to sea. But the fact cannot be denied that the labor of these two classes is unproductive. They know nothing of the "art" of stone breaking, and consequently cannot do an average quantity of work in that line. They cannot be sent outside the Prison grounds for street or farm work, because they are more liable to attempt an escape, as they have more inducements to get away than the ordinary run of prisoners. It may not be out of place here to observe that the sailors are in most cases from ships not registered at this port, paying nothing whatever toward the support of this or any other civic institution or service.

A considerable amount of street labor has been performed for the City Board of Works during the year, but I believe that the same number of men, employed at stone breaking in the prison yard, would have made a more profitable return to the city. Taking these men from the prison to the city and back to prison, necessarily consumes much time, which is actually wasted. Then there is the further time lost in sending dinners to those outside, other men having to be taken off regular work for that purpose. The absence of so many men lessens the quantity of stone broken, and as the supply of stone is never in excess of the demand, it is not desirable that there should be any less ready than can possibly be helped. There is an inconvenience, too, in connection with men working so far from the prison, which has been seriously felt. The men cannot be fed on the streets, and application has to be made to one citizen and another for the necessary accommodation at dinner time. In every case the accommodation has been willingly given, but, while the citizens concerned are entitled to thanks for their kindness, the question remains, is it fair to ask a repetition of such kindness?

Another stretch of land has been cleared and put under cultivation during the past year, and some was cleared too

late to be planted this season. But what was sown produced well, and the expense of maintenance will be lessened by the products of the farm being consumed instead of buying to so great an extent as in former years. From year to year the increase of farm stuff must of necessity be greater, and there will be a corresponding decrease in the expense of maintenance.

Prison labor has been used to assist men employed in repairing the roof of main building, in re-fencing the ground, etc., and in all other possible ways, the working time of the prisoners has been turned to as profitable account as could be.

The number of prisoners admitted for the twelve months, as will be seen by Table No. 2, is exactly the same as I reported last year for the previous eleven months. The commitments for October, 1880, were 51, the difference in favor of this year thus being that number. Of course the convictions for "drunkenness" preponderate largely over all others; and if taken in its generic sense that term will be found to cover vagrancy, assaults, and disorderly conduct—these, deducting the thirty for ship desertion, going to make up a list of offences all attributable to the one lamentable cause. While this is a matter for regret, the fact that there is a marked absence of more serious crimes, is a subject for congratulation. It will be observed that there were fewer male and more female prisoners admitted during the twelve months than in the previous period. There has been a gratifying decrease in the number of young persons (children under 15 years), but the necessity still exists for provision being made for the care of such as have been convicted, away from the contaminating influences of the adult (in many cases hardened) criminals.

Table 4 will not show any considerable increase in the amount and estimated value of articles and materials in the prison; but by constant mending and making the supply of clothing, etc., has been kept at about the same figures, thus rendering purchase of new material almost unnecessary.

I last year referred in my report to the water supply of the prison, and need not repeat here what was then said; but I take occasion to say that we felt the want of a better supply very much during a portion of the summer, when the well went dry, and water had to be carted a considerable distance.

In conclusion, I have to thank the committee for their assistance during the year, and for their prompt attention to matters brought to their notice from time to time.

I remain, Gentlemen,

Your obedient servant,

WM. MURRAY,

Governor.

CHAIRMAN OF THE BOARD

[Board Room Minutes, Board of Fire Department, 1892]
The Chairman's Annual Report on the Fire Department was received and ordered to be sent to the City Council for publication in the Annual City Report.

FIRE DEPARTMENT.

City Council that the Board had voted the price of one dollar per annum for the Fire Department as a rental of one hundred and eighty dollars per annum.

(Two extracts)

H. E. BUTLER
City Board of Fire

[Faint, illegible text, likely bleed-through from the reverse side of the page]

[*Extract from Minutes Board of Firewards, Oct. 2, 1882.*]

Read Chairman's Annual Report. On motion the same was received and ordered to be sent to the City Council for publication in the Annual Civic Report.

On motion, the Secretary was instructed to advise the City Council that the Board had rented the brick house on Grafton street, for Ladder Company, at a rental of one hundred and eighty dollars per annum.

[A true extract.]

R. L. SUTLIFFE,
Sec'y. Board F. Wards.

CHAIRMAN OF FIRE WARDS REPORT:

HALIFAX, N. S., Oct. 2nd, 1883.

To the Board of Firewards of the City of Halifax :

GENTLEMEN,—Permit me to present to the Board this, my Annual Report as Chairman of Firewards for the year ending October, 1882.

During the year just closed we received one thousand feet of rubber hose and two hundred and fifty feet of cotton jacket hose.

The Department will require one thousand feet of hose for the coming year to supplement the present stock. This I consider very necessary, as it may at any time happen that more than one fire would occur simultaneously in different localities, and in that case the present supply of hose would be insufficient to meet such an emergency; and, as to be forearmed is to be forewarned, I would therefore respectfully suggest that the Board request the City Council to make the appropriation to the Department.

As the Engine House at Islesville is in such a bad state of repair that it is next to impossibility for any keeper to live there with any degree of comfort, I would further suggest that the Board also bring this matter, at its earliest convenience, to the notice of the Council, in order that the place may be made tenantable before the Winter sets in.

His Worship the Mayor and City have, with their usual cheerfulness, provided the water-side protection, consisting of Mr. Chetwynd's steam tug and Mr. Judge's water boat; and I have great pleasure in saying that this is an invaluable acquisition to the Fire Department of the City.

During the year a new bell has been placed in the Queen Street Engine House, and I have no hesitation in informing

the Board that this bell, as a fire alarm, is not inferior to any of its kind in the Dominion. I am pleased to further inform the Board that the steam engines and all the remaining fire apparatus are in first-class working order.

It is also the intention to immediately rent a building in a central locality for the purpose of keeping our long ladders in, and for the new hook and ladder carriage, which is to be provided forthwith.

Before bringing my report to a close, I will avail myself of this opportunity of returning my best thanks to His Worship the Mayor and City Council for the uniform courtesy and promptness exhibited by them while soliciting any favors for the Fire Department.

I also hereby return my thanks to the Board of Firewards, individually and severally, for their earnest and active co-operation on all occasions during the time I have had the honor of being in office.

I also return thanks to Capt. Sheppard and the officers and men of the U. E. C., to Capt. Taylor and the officers and men of the U. P. C., and to Capt. Zong and the officers and men of the U. A. C., for the promptness shown by them at all times where their services were required.

To conclude, the Fire Department of this City received a kind and pressing invitation from the Fire Department of Milwaukee, United States, to make them a fraternal visit during the past Summer, but, owing to business engagements, our Department was unable to accept the hospitality of their brethren on the other side of the line; nevertheless, the proffered invitation was no less appreciated, and I shall take this opportunity of returning our Milwaukee brethren the thanks of the Fire Department of the City of Halifax.

I am, yours sincerely,

JOHN EAD,

Chairman of Firewards.

The following is a correct list of the Apparatus in the possession of the Department.

- Three (3) Steam Fire Engines.
- Two (2) Hand Fire Engines.
- Eighteen (18) Carriages.
- One hundred (100) lengths (5000 ft.) Rubber Hose.
- Sixty-four (64) lengths (2500 ft.) Leather Hose.
- Seven (7) lengths (75 ft.) Rubber Suction Hose.
- Twenty-three (23) Copper and Brass Branches, nine of which have patent control nozzles.
- Five (5) Ladder Carts.
- Twenty-nine (29) Ladders of sundry lengths, 18 to 20 feet.
- One (1) Patent Extension Ladder.
- One (1) Patent Hose Oiler.
- Five (5) Grapnels and Chains.
- Two (2) Hose Sleds.
- Two (2) Coal Carts.
- One (1) set Truck Harness.
- Twenty-five (25) Swinging Torches.
- Fifty (50) Lanterns.
- Eight (8) Life Lines (60 feet each.)
- Eight (8) Street Ropes.
- Twenty (20) Hydrant Wrenches.

The above are located as follows:

CENTRAL ENGINE HOUSE.

One (1) Steam Fire Engine, "Victoria" No. 1, 30 feet suction Hose and one branch.

Three-Hose Reel, "Albert" No. 1, 500 feet Rubber Hose, 2 Branches, 2 Torches, Life and Street Lines and Wrenches.

"Vesta," No. 2, same equipments.

"Salamander" No. 1, same equipments.

GERRISH STREET ENGINE HOUSE.

One Steam Fire Engine, "Albert" No. 2, 20 feet suction Hose and one Branch.

Two Hose Reels "Emerald" No. 2, 500 feet Rubber Hose, 2 Branches, 2 Torches, Life and Street Lines and Wrenches.

"Resolute" No. 4, same equipments.

One Spare Hose Reel.

One Ladder Cart Containing 6 Ladders.

One Grapnel and Chain.

One Fuel Cart.

QUINPOOL ROAD ENGINE HOUSE.

One Hose Reel, "Perseverance" No. 7, 500 feet Rubber Hose, 2 Branches, 2 Torches, Life and Street Lines and Wrenches.

SPRING GARDEN ROAD ENGINE HOUSE.

One Hand Fire Engine, "Alma" No. 5.
 One Hose Reel "Mayflower" No. 5, 500 feet Rubber Hose, 2 Torches, 2 Branches, Life and Street Lines and Wrenches.
 One Ladder Cart containing 5 Ladders.
 One Grapnel and Chain.

QUEEN STREET ENGINE HOUSE.

One Steam Fire Engine "Chebucto" No. 3, 25 feet suction Hose and 2 Branches,
 One Hose Reel "Alma" No. 6, 500 feet Rubber Hose, 2 Torches, 2 Branches, Life and Street Lines and Wrenches.

ISLESVILLE ENGINE HOUSE.

One Hand Fire Engine (not in working order now.)
 One Hose Reel, 500 feet leather hose, 1 branch and 1 torch.
 One Ladder Cart containing 5 Ladders.
 One Grapnel and Chain.

REEL HOUSE, UPPER WATER STREET.

One Hose Reel, 500 feet Leather Hose, 1 Torch, 1 Branch and Wrench.

REEL HOUSE, LOWER WATER STREET.

One Hose Reel, 500 feet Leather Hose, 1 Branch, 1 Torch and Wrench.

REEL HOUSE, LOCKMAN STREET.

One Hose Reel, 500 feet Rubber House, 1 Branch, 1 Torch and Wrench.

REEL HOUSE, PLEASANT STREET.

One Hose Reel, 500 feet Leather Hose, 1 Branch, 1 Torch, and Wrench.

REEL HOUSE, SUGAR REFINERY.

One Hose Reel, 500 feet Leather Hose, 1 Branch, 1 Torch, and Wrench.

Also 400 feet Leather Hose, situate on Cronan's wharf.

Omitted from Central Engine House list :

Two Ladder Carts, 13 Ladders.

One Extension Ladder.

Two Grapnels and Chains.

One Patent Hose Oiler.

Two Hose Sleds.

One Sett Hammers.

Record of Fires for the year ending September 30th, 1882.

1881.

- Oct. 11. Box 17.—Brown Bros. & Co., Granville street, damage slight.
 Box 28.—House Gottingen street, damage slight.
17. Box 17.—S. J. Cohn's and M. A. Davidson's store, badly gutted.
 Box 12.—Dr. Fitch's, Tobin street, damage slight.
19. Box 17—Moir, Son & Co's., Confectionary, Grafton street, damage by fire slight, stock badly damaged.
- Nov. 8. No alarm. J. Fultz's hot house, badly damaged.
30. Box. 7.—J. A. Chipman's House, chimney, damage slight.
- Dec. 20. Box 8.—McKay's hot house, Morris street, badly damaged.

1882.

- Jan. 14. Box 12.—False alarm.
25. Box 18.—John Gregoire's House, Brunswick street, damage slight.
- Feb. 2. Box 24.—E. McGuire's, Maynard street, badly damaged.
8. No alarm. Holland & Co's. shop, Barrington street, damaged slightly.
12. Box 35.—Jericho Warehouse, Upper Water street, occupied by Cathcart Thomson and Messrs. White & Simmons, completely gutted.
- Mar. 15. Box 28.—P. Cronan's house, Campbell road, totally destroyed.

- Mar. 27. Box 34.—Chimney on fire.
- Apl. 13. Box 24.—D. Murchie's shop and dwelling, Cedar street.
- May 5. Box 4.—House Dresden row, damage slight.
17. Box 34.—Scriven's Bakery, Barrington street, badly damaged.
22. Box 34.—Mulcahy & Marvin's, cooperage, Smith's wharf, totally destroyed.
30. Box 35.—Thomas Mulcahy's cooperage, J. S. Holtstead's junk store, Customs Warehouse, DeWolf's stores, on DeWolf's wharf, all badly damaged.
31. Box 4.—Jas. Dempster's planing mills, North George street, completely destroyed.
- June 14. Box 28.—Oil sheds on McPherson's wharf, Richmond, damage slight.
- Box 41.—W. Murray's house, Argyle street, badly damaged.
23. Box 24.—Thos. Kelty's, house Maynard street, damage slight.
- July 4. Box 34.—Window blind, house Proctor's lane, damage slight.
6. Box 16.—Called out to go to Dartmouth.
18. Box 35.—Bedding in house, Hurds lane, damage slight.
26. Box 32.—W. J. Blois' Barn, Brunswick street, damage slight.
- Aug. 20. Box 3.—Window blind, house Albermarle street, damage slight.
- Feb. 11. Box 24.—Cooperage fires, Maynard street, damage slight.

Total number of alarms for year, 31, against 43 for the previous year—average being nearly one fire for every twelve days.

JOHN EAD,

Chairman.

COAL MEASURERS' REPORT.

HALIFAX, N. S., October 12th, 1882.

To His Worship the Mayor and City Council:

RETURN OF THE CITY COAL MEASURERS.

Amount of coal weighed and measured by the City Coal Measurers from the 1st of October, 1881, to the 30th of September, 1882—30,696 chaldrons and 6 tubs, at 12½ cents per chaldron, gives in money \$3837.06. The expense of that amount \$105.73, leaves to be divided \$3731.33, which gives to each man \$373.13 for the twelve months ending the 30th of September, 1882.

REPORTS

BROUGHT UP TO 30th APRIL, 1883.

IN ACCORDANCE WITH

RESOLUTION OF CITY COUNCIL.

CITY AUDITOR'S REPORT.

OFFICE OF CITY AUDITOR,

Halifax, Feb. 23, 1883.

SIR,—I have the honor to acknowledge receipt of Resolution of City Council of 14th inst., requiring information relating to the Floating Debt of the city, as it stood on 30th April, 1882, and other matters in connection with the same up to the present date. The information required will be found detailed in the several papers herewith submitted.

The total amount of Floating Debt on 30th April, 1882, was \$168,188.29, as per statement No. 1. It will be observed that two other claims, one from Commissioners of Schools for \$9,784.86, and another from Commissioners Public Charities for \$7,758.47 were at that time undecided but have since been recognized by the City Council.

The claim of the Commissioners of Schools has been disposed of by a separate loan and that of the Public Charities divided, one part being made chargeable to the current year; the balance \$5,529.23 forms part of the present Floating Debt.

The total amount drawn from the Merchants' Bank up to 14th Feby., 1883,—is \$184,783.29, but this included \$100,000 received for debentures which was merely deposited and drawn out again. The total amount of old rates collected up to 1st Feby., 1883, and paid into the Merchants' Bank was \$25,100.98; adding to this amount \$6,844.52 received from other sources and paid into the bank, would reduce the liability of the city to that institution to \$52,827.28. See statements 2 and 3.

The present condition of the Floating Debt is detailed in statement No. 4.

As regards the amount of old assessments available for liquidation of the Floating Debt it is really difficult in view of recent experience to speak with anything like confidence. On 1st Feby., 1883, there was remaining of uncollected rates 1878-9-80-81 and '82 the total of \$121,501.21. Up to 1878 the greatest loss for collection (including the amount allowed for that purpose), was about 7 per cent of the year's estimate.

If we consider the whole of the uncollected rates, for 1878 as bad, it would give 11 per cent. as the cost of collection for that year. I have allowed 12½ per cent. on the several assessments for the years 1879-80-81 and '82, which would leave available \$31,394. See statements 5 and 6.

According to the best of my judgment I should say that a round sum of \$35,000 would meet the deficiency, and the balance of old rates, say \$31,394 ought to be recoverable inside of two years.

In explanation and vindication of the unpleasant necessity of again applying to the Legislature for power to borrow, I must take the opportunity of stating that the amount of old rates due at this time last year was \$146,602 and it certainly never could have been anticipated that so little of this large total would have been realized up to the present date.

I have the honor to be, Sir,

Your obedient servant,

J. A. BELL,

City Auditor.

His Worship the Mayor, &c., &c.

	<u>\$146,602 19</u>	<u>\$25,100 98</u>
		<u>\$121,501 21</u>

No. 6.

Estimated value of above after expunging all of the year 1877-8 and allowing 12½ per cent. on gross amount of assessment for 1878-9, 1879-80, 1881-82.

Balance uncollected 1st Feb., 1883.

For 1878-9	\$ 24,732 84	computed at \$	598 00
1879-80	23,908 32	do.	4,453 00
1880-81	23,642 36	do.	8,350 00
1881-82	28,957 30	do.	17,193 00
	<u>\$101,240 82</u>	do.	<u>\$31,394 00</u>

OFFICE OF CITY AUDITOR,

Halifax, June 18, 1883.

SIR,—I have the honor to lay before your Worship and the City Council a report upon the financial affairs of the city for the year ending 30th April, 1883. Owing to various causes the statement will be necessarily brief.

The annual civic report now in course of preparation will bring the accounts down to 30th April of the present year, an innovation, or rather improvement, which up to the present time was not practicable, in consequence of the civic and financial years having always terminated hitherto at different dates, the one ending in April, the other in October. Among the various alterations introduced by the new Assessment Act, I consider this harmonizing of the civic and financial years to be by no means the least. Including the debentures for erection and equipment of public school-houses, amounting to \$165,718, the total aggregate of the funded debt of the city now stands, or rather did stand on 30th April last, \$1,590,513.26, as compared with \$1,491,945 on 30th April, 1881, the schedule published at that date having been reduced on the one hand by the elimination of \$8,000 debentures on the Market House and augmented on the other by \$6,000 for Exhibition buildings included in the amount of consolidated stock and \$100,000 borrowed under an Act of the Legislature to cover certain deficiencies. The Additional loans, amounting \$64,800, authorized by Acts

passed during the recent session of the Legislature, do not appear in the annual report of this year, for the reason that on 30th April last none of them had been taken up. Of the whole funded debt, including \$23,200 for water supply, \$431,900 is now held at 5 per cent. interest, the chief part of this amount having been formerly held at 6 per cent. and none of it less than 5½. The annual saving of interest resulting from the consolidation Acts already passed will exceed \$4,000 per annum.

The returns of assessable property of the recent assessment, though made under the old act, show a very gratifying increase of \$1,599,016, the total value returned, irrespective of property exempted from school rates being for 1883-4 \$17,154,705, as compared with \$15,555,689, the amount of the last previous assessment; the increase being mainly, if not wholly, attributable to greater skill and carefulness on the part of the assessors. One effect of this increase will be to reduce the rate per centum from \$1.62, which was the rate of last year, to \$1.44. It will be observed in reference to the increase in valuation for the present year that real estate shows a gain of \$811,161, and personal property of \$1,042,877. The assessed value of banking capital rated at ¾ per centum is about the same as that of last year. The next assessment will occur under the new act passed last winter, and will require to be made in the autumn of the present year. That some discrepancies and possibly some inconveniences may arise both to the ratepayers and the city government from the alterations in the time of assessing rendered necessary by the passage of the new Assessment Act, is only to be expected, though it is to be hoped the difficulties will be only temporary. With regard to the act itself, in a document of such length and involving so many details, it would be strange indeed if there were not some slips of omission or redundancy, but this much, at least, can certainly be said of the new act; that it embodies the matured experience of municipal corporations in other cities as well as our own; that it has been most carefully considered and discussed, clause by clause, in the City Council, in the newspapers and in the Legislature; and that every suggestion which recommended itself as valuable or practicable has been adopted.

As statistics relating to civic affairs cannot be otherwise than interesting to the citizens, I think it proper herewith, to insert a synopsis of the last assessment obtained from the
