to state that they have taken action on the letter of J. Stokes Esq. Royal Naval Yard, relative to injuries sustained to premises belonging thereto by the water, from a drain running parallel unto the yard wall, the same having been referred to them by this Council to report on.

Your Committee have examined the premises in question and found that there had been previously cause of complaint resulting from the stoppage of the drain referred to. In December, last, the said drain was cleaned out by the directions of your Committee which has prevented any injury from it since, should there be cause of future complaint arising therefrom. Your Committee would recommend that a fifteen inch pipe drain as suggested by J. Stokes Esq. be substituted for the present one. They would also recommend that a copy of this report be sent to that gentleman without delay.
