Committee Room
March 3rd/71

Special Committee on Common Lots met this day. Present. Alderman Sinclair Duggan. Grant.

Report Special Com on the Capitalizing of Common Rents.

The Special Committee appointed to confer with the leases of Common Lots on Spring Garden Road relative to their leases by purchase, beg to report that they had an interview with some of those gentlemen who offered to pay twenty years rental down up the City Authorities should purchase these leases and give them a clear title in fee simple for their lots. That the Committee think it a very fair offer inasmuch as it would give a larger sum of one fifth for each of the same premises as their rental at six cents would give two the annual rental is say seven hundred and eighty dollars, that sum multiplied by twenty gives fifteen thousand six hundred and eighty.

1871
March 13th

The interest on which at six percent gives nine hundred and thirty six dollars a gain to the City of one hundred and fifty six dollars by amending the Committee therefore recommend that the prayer of the petitioners be granted and that His Honor the Recorder be requested to prepare a bill for the purpose of carrying out that object.

All of which is respectfully submitted

Moved by Alderman Montgomery seconded by Alderman Boyd which resolution on being put is passed.

The following resolution is next introduced.
Whereas it is understood that certain statements unfounded in fact have been made respecting the amendments to the Act providing for the appointment of the Commissioners of the Poor Asylum and Hospital recently passed by the Council which are calculated, if not resisted to affect the passage of the bill through the Legislature it is expedient therefore that the Board pass its adherence to the principle there where it is required by Law to lay out the City's money for the support of any public institution it should have a voice in the direction of the affairs of that institution, and moreover that the representatives so appointed should hold seats on the Council and thus be directly responsible to the rate payers.

Report that on George Street owned by Mr Fenwick and
Special Com occupied by Messrs Martin and Company. On
the night of Saturday the 1st or morning of
Sunday the 2nd of April instant they leave the
Thompson report as follows.

Your Committee examined
several witnesses who were present at the
of the alleged breaching and entering and find
the facts to be that some time after the fire
broke out in Durtons building at the corner
of Granville and George Streets, it was found
that ample water could be thrown on the rear
of the building the fire could not be checked,
the access could be gained by the firemen to the
attic of the building through the building
itself, as there was no communication to the
that way and the only passage to it being
through Mr Gates shoe factory having been
impassable from the apertures of smoke
that filled the building it was unanimously
decided by Ald Duggan chairman of the Fire
Board Mr Power John Slum and Charles Donald
Aggrie all fire boards and Alderman Mc Gulloch
that passages should be taken of Messrs
Martin & Co store and the hose carried through
it in order that the fire might be attacked
on the rear. One Mr Martin was on his way from
England and the other lived in Dartmouth
and the Alder Mr Hemford who had the
keys of the store could not be found, so the
firewards had the door forced open and
the hose led through the building and out
of a

1871
April 21

of a sky light in the base roof on to a flat roof of a projection at the rear of the building whence the firemen could command the rear of the burning premises and by which means they effectually extinguished the fire. All parties agree that the move was a wise one and the bringing under of the fire in so short a time afterwards was the result of the gaining so commanding a position by the firemen.

Continued Great care seems to have been taken by the officials that no extraordinary damage should be done the building or goods for hose burst in the shop and police men were stationed at the door to prevent any but properly authorized persons from entering the building: but all hose will leak or speak more or less and as a consequence some of the floors in the shop were considerably wetted and holes were cut through them to allow the water to run off. The sky light through which the hose was passed out in the rear was guarded with iron bars and in removing them some damage was done to the window frame and the plaster adjoining it and a small hole was made by the jaws apparently through the zinc of the roof. Some of the plaster on the ceilings from being wetted was discoloured and possibly some of the zinc on the flat room where the men stood may have been scratched by the nails in getting boots. Your Committee regret to say that there was produced on behalf of Mr. Smith an appraisement signed by three respectable mechanics estimating the damage to the building at two hundred and twenty five dollars as your Committee after a sitting and carefully examining the building cannot divine where such an amount of money could be expended in repairing all the damage that was done the building on the occasion referred to.

Three gentlemen in the same business as Messrs. Martyn & Co have estimated the damage at seventy five dollars and thirty cents and your Committee are of opinion that the estimate is a fair one. Your Committee are not prepared to give an opinion upon the law in this matter but should it be decided by

April 21 of this Council to make good such losses as were incurred in these particulars added. Your Committee would recommend that as Messrs Martin & Co business was stopped for a week in consequence of the use of fire premises were put to on this occasion they should receive the full amount above referred to as appraised at Seventy five dollars and thirty cents. But as to Mr. Tenert's claim your Committee would recommend the sum of Seventy five dollars be tendered him in full of all damage, and to save trouble; but should the same not be accepted, your Committee recommend that the repairs be made at the expense of the City as they feel convinced that the same could be done to the entire satisfaction of the proprietor for something less than one third that amount of money.
