WATT STREET WATER EXTENSION

His Worship the Mayor.

Sir:

I have a request from Mr. Gibson for the extension of the water to supply a new house on the north side of Watt Street between Henry and Vernon Street.

The water pipes are laid on Vernon and Henry Street from Jubilee Road to Coburg Road without any cross connection between the main and to reinforce the service and give a better supply for fire and domestic purposes the mains should be connected.

I would recommend that a 6 inch pipe be laid on Watt Street between Henry and Vernon Streets.

The estimated cost of the work is \$1400.00.

Respectfully submitted,

H.W Johnston,  
CITY ENGINEER.

CONNAUGHT AVENUE WATER  
EXTENSION

His Worship the Mayor.

Sir:-

I beg to report on the application of Mr. R.P.Ward for the extension of the water on Connaught Avenue south of Oakland Road, that he states that he proposes to build one house and that he has assurance that when he starts another one will be erected on lot No.26.

The estimated cost of extending the water to supply these two houses is \$1800.

It is recommended that the extension be ordered to be done when at least two houses are under construction and that the special rate for the extension be fixed at \$108.00, being the interest at 6% on the estimated outlay.

Respectfully submitted,

FRASER STREET  
WATER EXTENSION

His Worship the Mayor.

Sir:

I beg to report on the application of Mrs. Jakeman for the extension of the water service on Fraser Street, that she is erecting two dwellings on the south side of this street and the extension of the water pipe to supply these properties would be about 175 feet long.

The estimated cost of the work is \$430.00.

It is recommended that the extension be made provided the owner will sign a bond undertaking to pay a yearly rate of \$25.80 which is recommended to be fixed as the special rate.

Sir:

I beg to report on the construction  
of a curb, gutter and sidewalk on the north side of  
Doyle Street from Queen Street to Grafton Park that  
a curb and gutter is at present laid for a distance  
of about 100 feet east of Queen Street. In addition  
to the local traffic to the properties fronting on  
this street there is a large volume of through  
traffic and also of traffic due to the terminus of the  
Bedford Bus being located here.

The estimated cost of the sidewalk,

QUEEN STREET CONCRETE SIDEWALK

His Worship the Mayor.

Sir:-

In accordance with the instructions  
of the Committee on Works I have made an estimate  
of the cost of the construction of a concrete side-  
walk on the west side of Queen Street between Spring  
Garden Road and Birmingham Street and between  
Artillery Place and Sackville Street. The estimated  
cost of the former section is \$1,135.00 and the City's  
share is \$567.50. The second section is \$351.56  
and the City's share \$187.01.

This sidewalk is in bad condition  
and is on one of the main streets in this part of

SOUTH PARK STREET  
SIDEWALK

His Worship the Mayor.

Sir:-

I beg to report on the petition for the construction of a concrete sidewalk on the west side of South Park Street from South Street to Spring Garden Road, that it is signed by twelve owners of property on the east side of the street as well as by a large number of property owners and residents in the south end of the City.

There are only two properties fronting on the proposed walk, namely Victoria Park and the School for the Blind.

This sidewalk was on the order paper some years ago and a start was made on the work when the then Board of Works stopped it, claiming that there were other sidewalks that should be done ahead of it.

There is no question but that the construction of this sidewalk and curb and gutter would improve the appearance of one of our most attractive streets and which is in the neighbourhood of the Public Gardens and the Lord Nelson Hotel.

The estimated cost of the work is \$6,500, of which the City's share would be about \$5,200.

It is recommended that the work be placed on the order paper to be done this year.

The petitioners also ask that the Tram Company be asked to pave their track allowance on the same two blocks

When the pavement was laid the Tram Company claimed to be in financial difficulties and were unable to comply with the request of the City to pave their track when the rest of the street was paved, but the City went ahead with their part of the work, the understanding being that the track allowance would be paved in the future.

April 17th, 1930

If the Council decides to order the curb and gutter and sidewalk, the time would be opportune for the Tram Company to complete the work and in such case they should be formally notified to do so.

TOWER ROAD SIDEWALK

His Worship the Mayor.

Sir:-

I beg to report on the petition from the owners of property and residents in the south end asking that a curb and gutter and concrete sidewalk be constructed on the east side of Tower Road between Spring Garden Road and South Street, that at present these are the only two blocks of this street between Spring Garden Road and Inglis Street in which curbs and gutters and sidewalks are not laid.

April 17th, 1930

There is no question of the improvement that would result from the proposed work being done as it would form a proper setting for Victoria Park and the School for the Blind, as well as being of service to the general public.

The estimated cost of the work if \$4,900 of which the City's share will be about \$4,000.

It is recommended that the work be ordered, but if it is decided to proceed with the sidewalk on South Park Street this year, that it be not done until 1931.

City Engineer's Office,

811 BARRINGTON STREET  
GASOLINE TANK AND PUMP

His Worship the Mayor.

Sir:-

I beg to report on the application of the owner of the premises No. 811 Barrington St., for the installation of a gasoline storage tank and pump at these premises, that it is proposed to instal the tank and pump near the street line on the lot south of the building. The application stated that the tank is for his own use and also occasionally to sell gas if there is a demand for it.

The Committee has adopted the principle of not allowing any public tanks or filling stations to be erected unless cars can go off the streets to be filled. In this case if the tank were used for public purposes, cars would have to stay on the roadway while filling.

I cannot recommend that a permit be granted for the installation of the tank and pump to be used for public purposes but if the owner will give a guarantee that it will only be used for filling his own cars, there will be no objection to granting the permit. If the Committee agrees with this, it is suggested that in addition to the ordinary conditions a further one be added that in the event of sales to the public being made, that the permit be cancelled.

WATER METER BILLS

Read report Committee on Works and City Engineer re Water Meter Bills No. 40 Artz Street 212-14 Argyle Street, 21 Davison Street, and 15 Kings Place:

City Engineer's Office,  
Halifax, N.S.,  
March 25th, 1930

# 40 ARTZ STREET WATER BILL

His Worship the Mayor.

Sir:-

I beg to report on the application of the owner of the premises No. 40 Artz Street for a reduction in the water bill, that the period complained of is the month ending January 9th, 1930. The monthly consumption at these premises has been as follows:

1929	Sept.	10	2,400	
	Oct.	8	1,600	
	Nov.	8	1,300	
	Dec.	9	1,900	
1930	Jan.	9	23,700	Tap & W.C. Wasting (N) 10-1-30
	Feb.	10	4,500	
	Mar.	10	2,100	

April 17th, 1930

There was a larger consumption than usual for the month ending January 9th due to a tap and closet wasting of which a notice was sent to the owner on the 10th of January. In the letter the owner states that the tenant had been allowing the water to run freely on cold nights to keep it from freezing. In view of the fact that we had very many and much colder nights after the 9th of January than before, it is apparent from the records of the succeeding months that it was unnecessary to allow the water to run for this purpose.

I cannot recommend any reduction in the bill.

NOS. 212-214 ARGYLE  
STREET WATER BILL

His Worship the Mayor.  
Sir:

I beg to report on the application of the owner of the premises No. 212-214 Argyle Street for a reduction in the water bill, that the monthly consumption at these premises has been as follows:

Aug.	No key
Sept.	No reading
Oct. 25	38,600
Nov. 23	16,000
Dec. 30	no key
Jan.	No reading
Feb. 4	166,500 Pipe wasting N. 19-2-30
Mar. 31	12,900

The meter was not read during December and January and there was a large consumption shown when it was read on the 4th of February. The owner states that in December or January his attention was drawn to a leak in the pipe in the cellar, which was immediately repaired. The record would seem to bear this out, and I would recommend that the consumption for the three months ending February 4th be reduced to 100,000 gallons and the bill made up accordingly.

No.21 DAVISON STREET WATER BILL

His Worship the Mayor.

Sir:

I beg to report on the application of the owner of the premises No.21 Davison Street, for a reduction in the water bill for these premises, that the monthly consumption for the past few months has been as follows:

Sept.	25	3,800	
Oct.	25	400	
Nov.	26	100	
Dec.	26	4,300	
Jan.	27	800	
Feb.	24	19,300	Pipe & W.C.W N 3-3-30
Mar.	25	4,600	

The large consumption for February was due to a broken pipe. The owner sent a plumber and had it repaired on receipt of notice. I would recommend that the February reading be reduced to 10,000 gallons and the bill made up accordingly.

15 KINGS PLACE WATER BILL

His Worship the Mayor.

Sir:

I beg to report on the application of the owner of the premises # 15 Kings Place for a reduction in the water bill, that the period complained of is the half year ending April 1929. The monthly consumption at the premises during the period was as follows:

1928.	Sept.	10	7,000	
	Oct.	11	6,800	
	Nov.	19	3,600	
	Dec.	17	6,000	
1929	Jan.	16	23,400	W.C.W. (N) 24-1029
	Feb.	-	-	
	Mar.	5-	-	Diphtheria in house
	Apr.	11	193,900	W.C.W. (N) 12-4-29
	May	30	8,200.	

There was a large consumption from January to April. The meter could not be read in March owing to the fact that there was diphtheria in the home

April 17th, 1930

The owner claims that owing to the meter not having been read they had no notice of the large consumption but the records show that a notice was sent on the 24th day of January at the beginning of the period of large consumption and judging by the reading in April, the next time the meter was read no steps had been taken to curtail the waste. I cannot recommend any reduction in the bill.

RESIGNATION OF CITY AUDITOR

His Worship the Mayor submits and reads the resignation of Allan H. Butler, City Auditor:

April 17th, 1930

City Auditor's Office,  
Halifax, N.S.,  
April 17th, 1930

His Worship the Mayor,  
Halifax, N.S.

Your Worship:

In tendering my resignation as City Auditor may I express my appreciation to you, the members of Council, and all civic officials for the happy relations that have at all times been associated with our efforts in dealing with civic problems.

It is only because I have been offered a position in the larger field of opportunity that the necessity for severing my connection with the City arises.

As indicated in my conversation with you, I shall be glad to arrange matters so as to ensure the prompt closing of the books at the end of the present civic year and the subsequent issuance of the Annual Report.

Yours very sincerely,

Allan R. Butler.

Moved by Alderman Dickie seconded by Alderman Adams that the resignation be referred to the Finance Committee. Motion passed.

CITY EMPLOYEES-SALARY REVISION

X  
Read report of the Special Committee appointed to revise the salaries of the employees of the various Departments of the City:

Halifax, N.S.,  
April 17th, 1930

His Worship the Mayor,  
and Members of the City Council.

Gentlemen:-

Pursuant to a resolution of the City Council passed on February 26th, the following named were appointed a Special Committee on salary revision:

Chairman

Alderman Mitchell, Deputy Mayor,  
Alderman Cragg, Ch. Finance Committee  
Alderman Dickie, Ch. Charities Committee  
Alderman Corbin, Ch. Board of Health  
Alderman McInnes, Chairman Laws &  
Privileges Committee  
Alderman O'Toole, Ch. Firewards "  
Alderman Donovan, Ch. Gardens, and  
City Prison "

April 17th, 1930

Alderman Adams.  
City Auditor and City Engineer

Your Committee have held several meetings and has given considerable time and study to the question of devising some scheme of salary revision and standardization that would permit of its practical application and be equitable in its provisions with respect to the interests of both employees and taxpayers.

The principle followed as to fix the salary of any particular position at an amount compatible with its importance and the necessary qualifications required to fit it, fixing the minimum and maximum and a yearly automatic increase

After canvassing the matter from every view point and adjusting differences and inequalities, the Committee is unanimous in recommending to the City Council as follows:

1. That the attached schedule of salary revisions be approved and adopted.
2. That no reduction be made in the salary of any official now receiving an amount in excess of the maximum established for that position.
3. That in order to exercise proper control over officials whose services, in the opinion of the Departmental head, have not been satisfactory, no automatic yearly increase be granted until and unless recommended by such head.

It is not suggested that the scheme is perfect but it is claimed that it is a long step forward in the right direction and that if given a fair trial, it will in the course of time tend to obtain economy of administration and to secure better public service.

The Committee however urges the adoption of its recommendations in their entirety as providing a fair solution of the vexed problem which confronts the members of the Council annually of dealing with applications for salary increases thus eliminating the undesirable feature which has so often obtained in the past whereby certain officials were favoured over others because they were able to successfully prosecute their individual claims; and mainly as stated before because their adoption will lead to economy and efficiency.

Respectfully Submitted

Walter Mitchell

The special and unanimous recommendations of the Committee are as follows:

- (a) Appointment of Firemen's Examining Board the personnel of which shall consist of Chief of Fire Department, City Engineer, and Provincial Fire Marshal to Apr. 30th, 1931.
- (b) First Year men to be on probation. Must pass first examination or be discharged.
- (c) Second or sixty year men must pass examination before salary increase.
- (d) Board to have power to refuse examination to any fireman with unsatisfactory record.
- (e) All ranking members except Chief and Deputy Chiefs to pass one qualifying examination.
- (f) Board to have power to recommend increase of not more than two years amount in one year for special proficiency or meritorious service.
- (g) Referring to the increase to be granted to any hoseman now receiving \$1,404.00 an amount of \$1,500 is allocated for the purpose to be granted at the rate of \$36. each for 1930-31 to all hosemen who pass the prescribed examination.  
After consulting with the Chief of the Fire Department the Committee decided that in future there would be no salary distinction between Chauffeurs and hosemen. At present a chauffeur receives \$1,508.00 and a hoseman \$1,404. In rating the latter the Committee recommends an advance of \$36. on passing an examination. This grading is equivalent to that of a constable. In view of the fact that chauffeurs and hosemen will be rated the same in future the salaries of the chauffeurs will remain stationary until they automatically advance at the same time as the hosemen. This will not be effective until 1932 when the automatic increase will be at the rate of \$52. on passing examination.

CITY.

Dear Sir:

I am attaching correspondence in connection with an account rendered by R. St. C. Dares, Barrister, amounting to \$73.90, \$70.00 of which is for professional services for preparing seven descriptions for the Tax Property Sale Committee.

I am also attaching a letter which the City Solicitor wrote me, and while his

contention is very well stated, yet I think it should be the right of Council to say when any department shall take on additional help.

If you will refer to Section 455 of the City Charter you will note that it is the duty of the City Solicitor to do this work.

I may say I have paid Mr. Dares for his work on the City Solicitor's undertaking that he would be responsible, but I should like a ruling from your Committee as to this matter because there will be other cases in future as I understand that Mr. Dares has a number of descriptions to prepare.

Yours very truly,

RE DARES ACCOUNT

Dear Sir:

When the Committee appointed to make sales of the properties which had been purchased in by the City at tax sales, was begun, it was found necessary to obtain descriptions of some of the properties for which no adequate description could be made from the material in the City Hall.

In some cases the work of obtaining these descriptions involved long and troublesome searching in the Registry Office and I told the Committee it would be impossible for me to do this work and attend to my regular work. The Committee agreed with this and on the recommendation of His Worship Mr. Dares was employed to obtain these descriptions for a sum of \$10.00 for each description together of course with the usual disbursements for search fees, etc. This sum, in my opinion was an extremely small charge for the work involved. The charge, as I understand, is to be taken out of the price obtained for the properties as part of the expenses of the sale, and in my opinion is an entirely proper charge.

It has always been the custom for the City to obtain additional assistance in any of the Departments when doing any special work which would involve the neglect of the regular work of the City and if I had attempted to obtain these descriptions, it would have necessitated my being absent from the City Hall at so long intervals as to very seriously interfere with my other work.

Yours truly,

F.H. Bell,  
CITY SOLICITOR.
