

Council,  
August 15, 1962.

Olands' siding is now being installed, as shown on Plan No. SS-9-15476, at no cost to the City at this time.

The Commissioner of Works said that in view of the fact that circumstances made such an installation as proposed on Drawing No. SS-9-15475 impossible, he felt that the Committee and Council should be so informed.

The Committee agreed to accept the report and passed the same along to City Council for their information.

Respectfully submitted,

K. C. Mantin,

public hearing and that the matter be referred to the Town Planning Board after the public hearing for a recommendation.

Respectfully submitted,

K. C. MANTIN,  
CLERK OF WORKS.

To: His Worship the Mayor J. E. Lloyd and  
Members of the Town Planning Board.

From: P. F. C. Byars, City Manager.

Date: July 10, 1962.

Subject: Inglewood "B" Subdivision.

This subdivision was approved on July 24, 1951, and it includes an extension to Chain Rock Drive, between Balmoral Road and the North West Arm. This extension has not been constructed, and in fact it could not be usefully developed as a street because of the existing grades. In consequence, Lot 37 on the subdivision could not be developed on the basis of the approved plan. An extract of the approved subdivision is shown on Drawing No. P303/18A.

The owners of the subdivision, Eastern Trust Company, have, some time ago, approached the City with a request to alter the subdivision to enable them to proceed with development of the remaining land, and relieve them from the responsibility of constructing the extension to Chain Rock Drive, which is already mentioned could not be used as a street because of grades.

In consultation with representatives of the Eastern Trust Company and the Point Pleasant Park Commission, staff have prepared a suggested amendment to the subdivision, which is also shown on Drawing No. P303/18A. The suggested revision results in the following:

- (a) Chain Rock Drive extension is to be abandoned and the Eastern Trust relieved from its construction;
- (b) In lieu of three residential lots on the original subdivision, the area is subdivided into four residential lots:

Lot A	-	7,347 square feet
" C	-	9,100 " "
" D	-	15,300 " "
" E	-	12,000 " "

Lots C, D and E each have a frontage of approximately 33 feet. This frontage is permissible on a curve;

- (c) Lots A and E, with a combined area of 19,347 square feet, would be conveyed to the Eastern Trust Company in replacement of Lot 37 on the original subdivision, which measures some 21,200 square feet.
- (d) Lots C and D would be retained by the City and sold for private development;
- (e) A right-of-way 20 feet wide (Lot B on the plan) would be leased by the City to the Point Pleasant Park Commissioners, to link Chain Rock Drive with Point Pleasant Park for pedestrian use by the residents of the area. The connection would link with existing footpaths within the Park, leading to the beach on the North West Arm.

Council,  
August 16, 1962.

- (f) Lot F, with an area of some 14,500 square feet would be leased to the Point Pleasant Park Commissioners for use as a public beach. This Lot contains a sewer right-of-way separating the proposed residential lots from the Arm. It also forms a natural extension to the existing beach within the Point Pleasant Park to the South.

The Directors of Point Pleasant Park at a meeting held on April 16, 1962, considered the suggestions put forward by City Staff. They decided to recommend a alternative solution which is as follows:

1. Lot #37, Balmoral Road, owned by Eastern Trust Company to be exchanged for Lot #2 on the Chain Rock Drive, owned by the City of Halifax;
2. The Company to be relieved of the grading charges on Chain Rock Drive from Balmoral Road to the North West Arm and the title of same to be vested in the City of Halifax;
3. The City to retain ownership of Lot #1 on Chain Rock Drive;
4. That when Lot #37 becomes the property of the City of Halifax, it be leased to the Point Pleasant Park Commission when the deed has been signed;
5. Any changes in the original subdivision plan to be referred to the Town Planning Board for consideration.

The solution suggested by Point Pleasant Park Directors would allow only one residential lot to be sold by the City, and would retain a larger area for public use. While it is considered by staff that the beach on the North West Arm should be preserved for the general public, it is doubtful whether the steep land between the beach and Balmoral Drive could be successfully developed as part of Point Pleasant Park. The Eastern Trust Company have expressed their agreement with the suggestions made by City staff, although they would prefer to retain lot C in lieu of Lot E on the amended subdivision.

It is considered that the suggested amendment to the subdivision, as shown on Drawing No. P303/18A would produce the best ultimate development for the area and if the Board agrees and recommends this solution to Council, staff will prepare a revised subdivision plan for approval. It is felt that this approval should be subject to a public hearing, and it will also be necessary to hold a public hearing on the closure of the part of Chain Rock Drive between Balmoral Road and the North West Arm. In addition, legislation will have to be obtained to allow the City to convey Lot A of the revised subdivision to Eastern Trust Company in exchange for other land.

Respectfully submitted,

P. F. G. BYARS,  
CITY MANAGER.

The Director of Planning displayed a Plan and outlined the suggested amendments to the subdivision for the information of the members of Council.

Mr. Gordon E. Smith, Chairman of the Directors of Point Pleasant Park, addressed Council and advised that the Directors had recommended a different proposal which was set forth in the City Manager's report.

A public hearing into the matter of rezoning the land described above was held at this time.

To: His Worship the Mayor and Members of the City Council.

After discussion, it was moved by Alderman DeWolf, seconded by Alderman Trainor, that the rezoning at the corner of Ogilvie and Brussels Streets from R3 to R1 and C3 to R2 be forwarded to City Council without a recommendation and that Council set a date for a public hearing and then the matter be referred back to the Town Planning Board for a recommendation.

Alderman O'Brien was recorded as being against.

On motion of Alderman Wyman, seconded by Alderman Trainor, the Board agreed to defer the matter of street patterns in this area until the public hearing on the rezoning was held.

Mr. E. F. Cragg, representing the South End Development Company Limited and Dante Investment Corporation which holds an option to purchase the property and erect thereon an apartment building, addressed Council. He stated that when the Company purchased this land from the Canadian National Railways, the purchasers inquired as to the zoning and were advised by the City Officials that the zoning was partially R-1 zone at the front and C-3 and R-3 zones at the rear. Acting on this information, the Company purchased the land in 1961 and later negotiated a sale to Dante Investment Corporation on the premise that the land could be used for the erection of an apartment building. He said the

Council,  
August 16, 1962.

building to be erected would be one of the finest and an asset to the City and that there is not one residential property closer than 300-feet and some are further away. Unless the property remained R-3 zone it would not be developed. This property was put up for sale in 1961 by the Canadian National Railways and there was no reason why the applicant for the rezoning or any persons who support the petition, could not have purchased the property themselves but such was not the case. He contended that if Council rezoned another persons property to his injury, against his consent and at the behest of a competitor in his specific line of business, it would be setting a most dangerous precedent. The property should be developed for the best use of the citizens as a whole in the City of Halifax.

A petition bearing 32 signatures was submitted from Young Avenue and Point Pleasant Drive owners requesting that the application to rezone Block 3 from R-3 zone to R-1 zone be approved. This petition was endorsed by Alderman Abbott.

Mr. Ralph Medjuck addressed Council on behalf of Point Pleasant Investments Limited and advised that his Company owned three R-1 zone Lots immediately opposite the property fronting on Ogilvie Street. He further advised that when the property in question was advertised for sale and all persons had an opportunity to purchase it, the zoning on Ogilvie Street was considered to be R-1 zone. This property was the subject of public hearings and Town Planning Board meetings. The entire area was thoroughly reviewed and the opinions of Aldermen, residents and other persons were manifested. He said his Company proposed to develop a portion of this property with low density multiple dwellings; 22 units on the overall area. Town Planning Board minutes reveal that there was concern over building anything above Brussels Street that was not of an R-1 use. Previously, his Company withdrew an application for rezoning this property to R-3 zone. His Company was of the opinion that this property was zoned R-1 as well as that of City Staff. In 1961, the present owners submitted to the Director of Planning a proposed subdivision of this particular property into 14 or 16 R-1 lots. It was dealt with by Mr. Barker in the Planning Office. Everyone since 1953 was under the impression that the zoning was R-1.

Council,  
August 16, 1962.

Mr. Ernest A. Bell purchased the land immediately adjacent to himself from the Canadian National Railways to protect his property on the assumption it was R-1 zone. He suggested that it is not proper to disturb the character of an overall residential neighbourhood such as Young Avenue. He also suggested that to introduce a high rise structure would destroy or mar the residential area. He asked that the confusion and error existing with respect to rezoning be once and for all corrected and that the wishes of the residents and everyone concerned be manifested and the Block on Ogilvie Street be zoned R-1 and the rear R-2.

Mr. Donald MacInnis, Q.C., representing 32 property owners in the area, addressed Council and stated that it is the intention of the residents to maintain the residential status of the neighbourhood and they agreed to a modified scheme put forward by Mr. Medjuck. He further stated that the zoning map of 1953 showed the area as R-1 zone and it was relied upon throughout the years. There was a mistake on the part of some person and people purchased properties in the light of the fact that they thought this was a residential area. As the new developers say that they are going to erect a 12 storey building, he asked if such a structure would be in keeping with the neighbourhood. He pointed out that there would be a new burden imposed upon the residents of the City of Halifax as new schools and sewers would have to be constructed. He requested that the area be maintained in the character as most people thought it was.

MOVED by Alderman Wyman, seconded by Alderman O'Brien, that the 4 Areas for rezoning be referred to the Town Planning Board for recommendation and report back to Council.

MOVED in amendment by Alderman Trainor, that outside Counsel be employed to check the minutes of previous Council meetings and that a report be submitted to Council as to what they consider the zoning of this land was in 1959 or 1960.

There was no seconder to the amendment.

The motion was then put and passed.

#### QUESTIONS

##### Question: Alderman Lane Re: Temporary Buildings at Wellington Court

Alderman Lane referred to the fact that certain buildings at Wellington Court had to be reopened for housing purposes for a limited time only. She requested a report as to what the term 'limited time' meant. She stated there is no available land in the City upon which trailer tourists can be lodged while they are in the City with the exception of the Exhibition Lands but due to the fact of the high density occupancy of the temporary buildings, this makes it a very difficult proposition for the Manager of the Tourist Bureau to arrange.

Alderman Lane also requested information of the Welfare Department if the City is responsible for providing shelter for these families who are dispossessed and she asked if it is to be done in perpetuity or are the families themselves responsible for finding their own shelter.

The City Manager was directed to submit a report from Staff as to the time of the final disposition of these buildings as well as an answer from the Welfare Department.

##### Question: Alderman Trainor Re: High Stop Signs

Alderman Trainor referred to the fact that stop signs are erected high above the trees at intersections which cannot be seen by motorists.

He was of the opinion that an accident occurred at the Corner of Robie and Charles Streets strictly as a result of an individual not being able to see a stop sign because the trees were obstructing the sign and also because the signs

Council,  
August 16, 1962.

are too high. He suggested that the Department of Highways be advised that the City of Halifax would like to have the stop signs erected at eye-level rather than  $8\frac{1}{2}$  or 9 feet high.

The Traffic Authority advised that the Department of Highways regulations stipulate that stop signs be erected at a height of 7 feet and the City is erecting them at a height of 6'6". He also advised that if they are erected too low, they are obstructed by parked cars at the various intersections. He suggested pruning the trees for better visibility.

The Traffic Authority was requested to check into the matter and report to the Safety Committee.

Alderman DeWolf requested that the sign at the Northwest Corner of Almon and Oxford Streets be checked as well but was advised by the Traffic Authority that the tree obstructing the view had been removed.

Question: Alderman Connolly Re: Error Zoning Map 1953

At the request of Alderman Connolly the City Manager was requested to check into the matter as to how one zone is indicated in the Zoning By-Law and another on the Zoning Map with respect to the land at Ogilvie Street, Brussels Street and Young Avenue Area.

Question: Alderman Healy Re: Demolition School for the Deaf Property

Alderman Healy asked if there were any plans for the demolition of the School for the Deaf Property as it costs the City \$20,000.00 annually for its maintenance.

He suggested that the Federal Government might enter into an agreement to erect housing on the site prior to the whole area being demolished.

His Worship the Mayor stated that this is the kind of modification, if it were made to the City, which might be feasible. A specific phasing of the steps in the development of the Uniacke Square Project has been requested from Staff and in order to do that they have to come up with a date they propose to demolish the building, what they propose to put on the site and when.

The Development Officer stated that a report would be forthcoming very shortly on the matter of the development of the Uniacke Square Project.

Council,  
August 16, 1962.
