SUBJECT: **Case 01002: Development Agreement - 5896 Spring Garden Road,
Halifax**

ORIGIN

Application by Geoff Keddy Architect and Associates to discharge an existing development agreement and to enter into a new development agreement to permit a restaurant/coffee shop within a municipally registered heritage property located at 5896 Spring Garden Road (PID #40416976), Halifax.

RECOMMENDATION

It is recommended that Heritage Advisory Committee consider the proposed change of use described in this report in relation to its impact on the registered heritage property located at 5896 Spring Garden Road, Halifax, and recommend that Peninsula Community Council approve entering into the proposed development agreement, included as Attachment "A" of this report.

It is recommended that District 12 Planning Advisory Committee recommend that Peninsula Community Council:

1. Give Notice of Motion to consider the proposed development agreement, as described in Attachment "A", to permit a restaurant/coffee shop within the registered heritage property located at 5896 Spring Garden Road, Halifax, and schedule a public hearing;
2. Approve the development agreement, included as Attachment "A" of this report;
3. Require that the development agreement be signed within 120 days, or any extension thereof granted by Peninsula Community Council on request of the applicant, from the date of final approval by Peninsula Community Council and any other bodies as necessary, whichever is later; otherwise this approval will be void and obligations arising hereunder shall be at an end; and
4. Discharge the existing development agreement that applies to the site, to take effect upon the registration of the new development agreement.

BACKGROUND

The application is to allow for Just Us! Coffee to open a restaurant/coffee shop within the registered heritage property located at 5896 Spring Garden Road, Halifax (corner of Spring Garden Road and Carlton Street; see Map 1). The building is currently used by Just Us! Coffee as a retail storefront for its fair trade coffee products. Retail and office uses are permitted within the building under a 1992 development agreement, which would be discharged if Peninsula Community Council approves the proposed development agreement. In addition to the change in use, the applicant is also proposing to convert a second floor window to a door in order to meet Building Code requirements for secondary access from the second floor.

DISCUSSION

Municipal Planning Strategy Policies

The subject property is located within the R-2 (General Residential) Zone and is designated Medium Density Residential under the Generalized Future Land Use Map for the Peninsula Centre Detailed Area Plan (see Maps 1 and 2). The current zoning regulations allow for R-1 (Single Family Dwelling) Zone uses, semi-detached, duplex dwellings and buildings containing not more than four apartments. Restaurant uses, which can include coffee shops, are not a permitted within the R-2 Zone.

However, Policy 6.8 of the Halifax Municipal Planning Strategy (MPS) states the following:

In any building, part of a building, or on any lot on which a registered heritage building is situated, the owner may apply to the City for a development agreement for any development or change in use not otherwise permitted by the land use designation and zone.

In considering a development agreement application under Policy 6.8, Council is directed to assess the proposal with regard to a set of criteria (see Attachment "C"). These evaluation criteria are concerned with the impact of the proposed change on the heritage value and integrity of the registered building and on adjacent uses (traffic generation, noise, hours of operation, parking).

Evaluation of Proposal and Development Agreement

The registered heritage property has been utilized for retail and/or office use since 1992, without any noticeable impact on the heritage value of the property or the integrity of Carlton Street as a recognized heritage streetscape. The entrance to be used to access the interior of the building is located on Spring Garden Road and is not visible from Carlton Street. The HAC recently approved four new windows on the Spring Garden Road elevation. The only other external alteration to be approved as part of this agreement is the removal of an existing second floor window and replacement with a door to provide access to an existing balcony, which will act as an area of refuge in the event of a fire. The proposed wooden door will be compatible with existing architectural elements of the building and will not diminish the heritage value of the building.

In an attempt to minimize the impact on adjacent residential uses, the draft development agreement, as described in Attachment "A":

- Ensures that refuse containers and propane tanks are adequately screened;
- Restricts the hours of operation to between 7:00 am and 10:00 pm; and,
- Places restrictions on deliveries to the building and the collection of refuse and recyclables.

It is anticipated that most customers who will frequent the establishment will live in the surrounding neighbourhood and will walk there. However, an ample amount of on-street parking does exist in the immediate area to serve the needs of those travelling by car. Two parking spaces will be provided at the rear of the property to accommodate deliveries and staff parking.

Public Information Meeting/Area of Notification

A public information meeting for this application was held on March 7, 2007. Minutes of this meeting are provided as Attachment "D" of this report. Community attendees were in support of the application. Should Community Council decide to hold a public hearing, in addition to published newspaper advertisements, property owners in the area shown on Map 1 will be sent written notification.

Conclusion

The proposal satisfies the applicable policies of the Municipal Planning Strategy (Attachment "C") and as such, it is recommended that Peninsula Community Council approve the draft development agreement.

BUDGET IMPLICATIONS

There are no budgetary implications.

FINANCIAL MANAGEMENT POLICIES / BUSINESS PLAN

This report complies with the Municipality's Multi-Year Financial Strategy, the approved Operating, Capital and Reserve budgets, policies and procedures regarding withdrawals from the utilization of Capital and Operating reserves, as well as any relevant legislation.

ALTERNATIVES

1. Council may approve the entire development agreement. This is the staff recommendation.
2. Council may choose to alter the terms of the development agreement. This may necessitate further negotiations with the applicant, and may require an additional public hearing.

3. Council may refuse the entire development agreement. Pursuant to Section 230(6) of the *Municipal Government Act*, Council must provide reasons for this refusal, based on the policies of the MPS. This alternative is not recommended, based on staff's finding that the proposed development agreement is consistent with policies of the MPS.

Excerpts from the Halifax Municipal Planning Strategy

- 6.8 In any building, part of a building, or on any lot on which a registered heritage building is situated, the owner may apply to the City for a development agreement for any development or change in use not otherwise permitted by the land use designation and zone subject to the following considerations:
- (i) that any registered heritage building covered by the agreement shall not be altered in any way to diminish its heritage value;
 - (ii) that any development must maintain the integrity of any registered heritage property, streetscape or conservation area of which it is part;
 - (iii) that any adjacent uses, particularly residential use are not unduly disrupted as a result of traffic generation, noise, hours of operation, parking requirements and such other land use impacts as may be required as part of a development;
 - (iv) that any development substantially complies with the policies of this plan and in particular the objectives and policies as they relate to heritage resources.

Public Information Meeting
Case 01002
March 7, 2007

In attendance: Councillor Sloane
Councillor Uteck
Luc Ouellet, Planner, Planning Applications
Gail Harnish, Planning Services
Geoff Keddy, Applicant

Mr. Luc Ouellet called the public information meeting (PIM) to order at approximately 7:05 p.m. at the Gorsebrook Junior High School. This is an opportunity for HRM to explain the process involving the planning application and for the client to explain the proposal. It also gives an opportunity for members of the public to ask questions or make comments on the application.

Mr. Ouellet advised the location of the site is at the corner of Spring Garden Road and Carleton Street. It used to be occupied by Unicef. The property is zoned R-2 which, depending on the size, allows up to four dwelling units. This zone does not normally allow for office space. The only reason they could have an office there was because if you have a heritage property it allows you to make an application to allow other uses not permitted under the land use by-law by development agreement.

Mr. Ouellet indicated we have been asked to look at a second option for the property. Unicef is no longer there. The property has either been sold or is being leased to "Just Us Coffee". We have been asked to look at an amendment to the existing agreement on a heritage property to allow a café to occur there. It is your traditional kind of coffee shop where they can serve coffee and a bit of food. They are there now and are allowed to do retail, sell coffee in packages, but they are not allowed to serve coffee.

Mr. Ouellet reviewed the development agreement process:

- we received an application and did a preliminary review
- the PIM is now being held
- we will undertake a detailed review of the application
- a staff report is prepared which will include a staff recommendation
- the application is vetted through the Heritage Advisory Committee and the District 12 Planning Advisory Committee
- the report and recommendations are forwarded to Peninsula Community Council
- Community Council will decide whether or not to proceed with the application and will schedule a public hearing, or they will reject the application
- the public hearing is held, if they decide to proceed with the application, following which they will make a decision
- there is an appeal process

Mr. Ouellet pointed out that the policies that apply to this application are on the last page of the

handout.

Mr. Geoff Keddy stated it is a heritage property. It had a mercantile commercial use in the past which was allowed through a development agreement. His client wants to open up a coffee shop. Right now they can just sell retail but they want to have a coffee shop where you can drink coffee. What he has done in the meantime is to try and improve the heritage quality of the building. The north side of the building is a brick wall so he introduced four windows. There are signs going above the windows. At one point they thought they would have to have a fire exit at the back off the second floor but they managed to circumvent that requirement. There is a deck they can use. He displayed a sketch of the proposed site. The entrance will be on Spring Garden Road.

The meeting was opened to public participation.

It was questioned where the fire escape is.

Mr. Keddy responded it is not required now because they have an area of refuge on the deck.

Mr. Aubrey Fricker questioned whether patrons would be out on the deck. Mr. Keddy responded they would in the summer time.

Mr. Ouellet indicated that following tonight's meeting he would get the minutes and work on the staff report. Originally they were leaning towards an amendment to the agreement but now he was leaning more towards discharging the existing agreement and preparing a new one because the standards for agreements have changed over the years. The current agreement just talks about the permitted uses. There will be a new agreement with modern clauses. It is a cleaner way of doing it.

Mr. Fricker asked if the lot would be rezoned.

Mr. Ouellet responded no, noting the development agreement is another layer over the property. The zoning will stay. Until the agreement is discharged, the permitted uses are extra. If the agreement was discharged, then the uses permitted under the existing zoning would apply. The development agreement allows certain things to be put in place. For example, if people were concerned about the hours of operation, they could include a clause in the agreement restricting the hours of operation. He referred to Bearly's on Barrington Street as an example. Bars are not allowed on Barrington Street. The only reason they are there is because they have a heritage property which allowed them to make application for a development agreement. Henry House is another example. They close at midnight. He suspected that was because there are hours of operation in the development agreement.

Mr. Bill Lord asked about the difference between a preliminary and a detailed review.

Mr. Ouellet advised the preliminary review is basically looking to see if there is policy support to

allow the use to be considered. We only look at the policy support at the preliminary level. The detailed review looks at engineering review, for example, for a proposal such as that being considered for the Texpark site. For a coffee shop, where there is only a change in use, the detailed review is not as extensive.

Councillor Sloane noted we would not have to do a traffic study for this proposal.

Mr. Ouellet indicated he would still circulate the proposal but it would not be as detailed a review as for many types of applications.

An individual questioned why the Heritage Planner was not in attendance.

Mr. Ouellet responded the Heritage Planner usually does not do the agreements, only the permitting because that takes a lot of her time.

Mr. Fricker asked about the different types of comments being looked for.

Mr. Ouellet responded the comments are viewed differently. If people said they were opposed to a proposal without giving us reasons, it does not help us. If you provide reasons such as it is a high traffic type of business and there are traffic concerns, then we would talk to Engineering staff and see if a traffic study is warranted. Sometimes people raise drainage issues we are not aware of.

Mr. Fricker commented it is to provide information.

Mr. Ouellet indicated we are here to gather information that we might not be aware of. Staff does not make our recommendation based on popular support; we just look at the plan policies. Council has a different role than staff and might take some of that popular support in mind. At the end of the day, Council has to consider policy criteria because its decision can be appealed to the Nova Scotia Utility and Review Board.

It was questioned how long the process would take.

Mr. Ouellet responded probably two to three months.

An individual commented she felt the proposal was marvelous.

Mr. Fricker agreed, noting that section of Spring Garden Road can use that type of use.

The meeting adjourned at approximately 7:30 p.m.
