Added Item

Date of Community Council Meeting: April 12, 2010

Subject: 10.3.1 Direct Venting onto Sidewalk - Councillor Sloane

Request:

I have received complaints about a dryer vent installed at 6102 South Street that discharges directly onto the sidewalk and a kitchen vent at Risley Hall (Dalhousie) that vents onto LeMarchant Street. The concern is that the moisture from the vents can create a hazardous situation for pedestrians if it freezes, and that having to walk through various cooking smells and perfumes can be unhealthy for some people. (Dalhousie is trying to fix their situation at Risley Hall)

Bylaw enforcement staff were contacted, but advised that nothing can be done because under their interpretation of the Bylaw, the vents are neither dangerous or unsightly.

I would like staff to look into this matter further to see if something can be done to correct this situation and provide an information report to Community Council.

I would like this response as:

- Email to Mayor and/or Councillor/Municipal Clerk's Office
 Memo to Mayor and/or Councillor/Municipal Clerk's Office
 Information Report to Community Council Regional Council
 Recommendation Report to Community Council Regional Council
