Item 7.1.3

May 25, 2015

Dear Grants Committee,

The BRCHA is requesting for an extension on a Grant that was so graciously provided to our organization by Halifax to help with the cost of conveyance of land and building, which provides a valuable space for our and surrounding communities.

As we are dealing with both the Province and the Municipality, this process has been a long haul, we are nearing the end of taking over the building and land. We would be so grateful that we would be able to again carry this \$5000.00 grant forward, so we will be able to take over the community centre. Please note that we would more than like to have this cleared up, as it has restrained us from being eligible for other grants. Your consideration in this matter would be greatly appreciated.

Sincerely,

Harry Ward
Treasurer BRCHA
