## Budgetary Overview

At the end of November, compensation should be at 63.46 per cent, while revenue and all other expenses should be at 66.67 per cent.

- Revenue - 65.97 per cent.

- Compensation overall (including overtime) - 62.12 per cent.
- Overtime - 75.46 per cent.

- All other expenses - 68.75 per cent.

- Net budget over all -62.29 per cent.

- Current overall projection continues to be a net budget deficit of \$623,600 due to over expenditure in overtime.

## Projects Under Development/Upcoming Events

- **Crime Mapping** - Deputy Moore is leading a pilot project to provide online crime mapping which will allow citizens to see where crime is occurring in our community. Select offence types including assaults, break and enters, robberies, theft from vehicle and theft of vehicle, will be plotted. The map will be updated twice per day. Halifax District RCMP has been approached to participate in the pilot.

## Total Firearms Seized Year-to-Date

## Homicides - Five Year Trend

- **CopShop - December 12** - is a partnership between Halifax Regional Police and Halifax Shopping Centre. Each year, more than 50 officers become personal shoppers for 50 kids as they purchase gifts for themselves and their families courtesy of \$200 gift cards donated by Halifax Shopping Centre. The children selected for Cop Shop are recommended by a variety of sources and are chosen because of need, recognition of specific academic or sports achievement or because of volunteer efforts that are making a difference in their communities. CopShop has been running for eight years.

## Seized Firearms Year-to-Date 2011 vs 2012

## Statistical Snapshot

## Calls for Service Overview - November 10 to 16, 2012

### Calls for Service Year-to-Date 2012 vs 2011

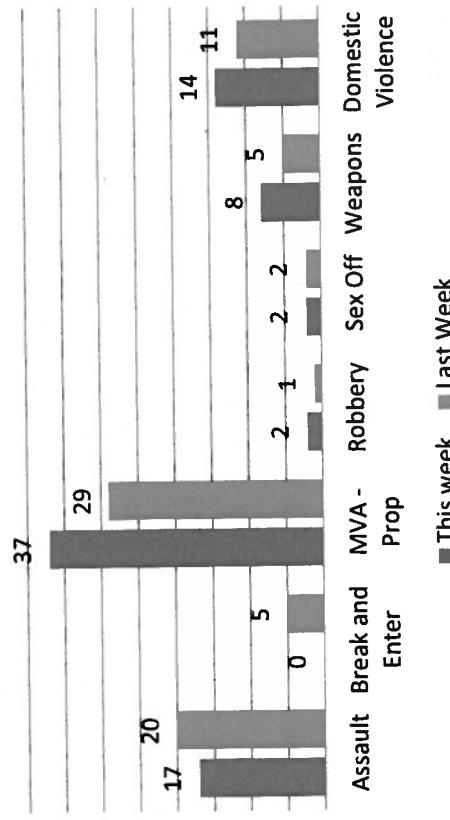

### Trend Analysis (past seven days)

**Central Division** - has seen a total of 36 Comstat related incidents including 16 theft from vehicle and 12 mischief/property damage offences. These offence types remain areas of concern as the incident rates have been consistent. As a result, several known offenders are being targeted and a hotspot has been identified in the downtown/Gottingen Street area. Also, after weeks of targeting the downtown core in relation to a high volume of bar patron related mischief offences, this area has seen a drop in all Comstat offences, in part due to the large volume of patrol activity, including but not limited to 86 recorded foot patrols in the designated hotspot since November 14. Overall, Central has seen a recent decrease in Comstat related offences.

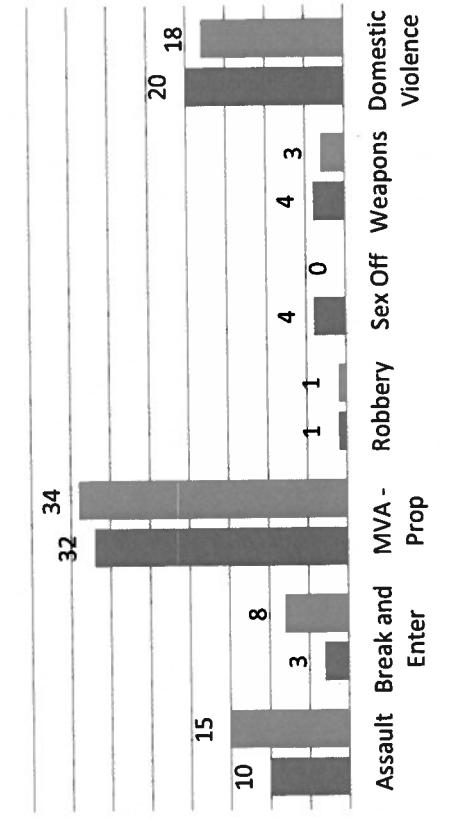

**East Division** - has seen 55 Comstat related incidents including 12 theft from vehicle and 16 mischief/property damage offences. Though these incident rates, in particular theft from vehicle, are up for the past seven-day period, when we expand our data set out a few weeks both offences are well below the expected norms. Of concern is an increase in violent offences - stabbings, home invasions and robberies. With the exception of recent known youth offenders committing street level robberies, East's violent offences are targeted and mostly surrounding drug related activity. Certain areas of North Dartmouth (Highfield Park Drive to Chappell Street and Victoria Street to Pinecrest Drive) continue to see the highest concentration and volume of incidents, over the past seven-day period and expanded time data sets, and are currently identified as a hotspot for increased presence and targeting of specific addresses known to be hubs for criminal activity.

\* Domestic violence calls for service are not captured under one category; they may be coded under a number of different call types ranging from bail violations to sexual offences. Therefore in the calls for service charts, certain domestic violence incidents may be included in both the domestic violence category and another applicable category.
