Sir,

I am Captain Rob Truscott, 423 Squadron Operations Officer, at 12 Wing Shearwater. We have been approached to conduct a motivational visit (MOTIVEX) to the Ross Road Elementary School on or about the 28th of November.

This MOTIVEX is part of the greater Canadian Forces (CF) Program called OP CONNECTION where CF units spend greater time face to face with community members, and especially youth. As part of our Higher Headquarters (1 Canadian Air Division) approval process, permission to conduct the landing is required from the Mayor or council of the municipality in question. The principal of the school (Mr. David Rolls) has advised me that you would like for these requests to come from the Department of National Defence.

In that spirit, I would like to request permission to land a Sea King helicopter at the Ross Road School for the purposes of a MOTIVEX.

12 Wing Shearwater would like to increase the frequency of these events throughout HRM, and it is acceptable for us to have them (the School) co-ordinate the request for your permission. If you would prefer to continue with having 12 Wing as the sole conduit for requests, that is fine with us as well.

For consideration,

R. Truscott
Captain
423 Sqn Operations Officer
720-1286
