Halifax Regional Council
June 27, 2006
July 4, 2006

TO: Mayor Kelly and Members of Halifax Regional Council

SUBMITTED BY: 
Wayne Anstey, Acting Chief Administrative Officer

DATE: June 20, 2006

SUBJECT: **Project 00327: By-law S-800 A By-law Respecting Requirements for the Licensing of Temporary Signs**

ORIGIN:

This report arises from a staff presentation to Committee of the Whole on April 12, 2005.

RECOMMENDATION:

It is recommended that Regional Council:

1. Approve in principle By-law S-800 "A By-law Respecting Requirements for the Licensing of Temporary Signs", as shown in Attachment 1, and schedule a public hearing;
2. Give First Reading to amend all Municipal Planning Strategies and Land Use By-laws to reference By-law S-800, as shown in Attachments 2 to 42, and schedule a public hearing;
3. Give First Reading to repeal the former City of Dartmouth Sign By-law (By-law S-800) and Halifax Sign Ordinances (19 and 166), and schedule a public hearing;
4. Approve in principle amendments to By-law E-200 "The Encroachment By-law" as shown in Attachment 43, and schedule a public hearing; and
5. Amend Administrative Order 15 "Respecting License, Permit, and Processing Fees", upon adoption of By-law S-800, to adopt license fees for temporary signs and permit fees for permanent signs as shown in Attachment 44.

SUMMARY

- The proposed Temporary Sign By-law will regulate mobile signs, posters, sandwich boards, banners, inflatable signs on private property and within HRM's right-of-way. No changes are proposed for regulating permanent signage: such as billboards, fascia signs, etc.
- The Temporary Sign By-law will use the general by-law provisions of the MGA, rather than the planning and development provisions. This enables more effective enforcement and penalty measures. In order to place all of the regulations for temporary signs in the Temporary Sign By-law it is also necessary to remove such provisions from all of the Land Use By-laws, Sign Ordinances and the Encroachment By-law.
- Several communities have prohibited mobile signs in their local planning strategies. These standards were arrived at following extensive local consultation and will remain in effect.
- With the exception of the issue identified above, temporary sign regulations throughout HRM will be standardized.
- Schools, churches, community and non-profit groups etc. would not be required to apply for a license to advertise special events provided such signage is only in place for a maximum of thirty days and it is not in the street right of way.
- The bylaw addresses two major enforcement issues: timely removal of signs and the difficulty of collecting evidence to determine who to charge (the sign company, the business using the sign or the property owner). The proposed bylaw allows HRM to remove the temporary sign once the license has expired rather than having to achieve a successful court conviction first, followed by an injunction ordering the sign removed.
- Costs for removing and impounding a temporary sign will be charged to the sign owner. Alternatively, if the sign is not claimed, a lien will be placed against the property from which the sign was seized. In this case the property owner, not the sign owner, is responsible for payment.
- Staff may issue Summary Offence Tickets which can carry a maximum fine of \$10,000. Before HRM can issue Summary Offence Tickets, Provincial approval is required which takes approximately six months.
- There has been extensive consultation throughout the preparation of the draft By-law. Most of the provisions contained within the By-law were agreed upon between staff and the temporary sign industry representatives. However, certain issues required direction from Council such as the duration of sign licenses and community variations for mobile signs.
- To conduct site investigations, issue summary offense tickets and order the removal of illegal signs, additional staff resources are required. Two FTE's were approved last year, for a total of 5 Community Standard Officers. In anticipation of additional enforcement measures, a third FTE will be funded from license fees.

BACKGROUND:

Goal and Objectives:

The goal of the proposed By-law is to consistently and effectively regulate Temporary Signs on private property and within HRM public right-of-ways. The objective of the By-law is to:

1. provide opportunities for temporary signs consistent with community vision and existing community plans;
2. preserve and enhance the visual character of the region's streetscapes;
3. provide a single point of contact for clients;
4. ensure consistent administration and enforcement of the By-law; and
5. ensure effective remedy for non-compliance.

Consultation Process:

In preparing the draft sign by-law, staff reviewed existing sign standards and procedures and researched By-laws used in other municipalities. The content of the By-law was refined through meetings with:

1. representatives of the permanent and mobile sign industries;
2. Planning Advisory Committees (jointly);
3. number of the Business Commissions;
4. internal staff (Capital District, Right-of-Way Services, By-law Rationalization);
5. Nova Scotia Automobile Association; and
6. various individuals and businesses.

In addition to the above consultation, staff held four public information meetings throughout the region on the content of the By-law. Due to the size of this report, the minutes of these meetings will be made available separately. The comments received indicated:

1. temporary signs are needed, especially for small businesses;
2. need to address cluster and maintenance issues; and
3. provisions should not be too restrictive that they prohibit temporary sign.

Council Direction:

During the consultation process, staff and temporary sign industry representatives were able to agree upon most aspects of the draft by-law. However, certain aspects of the by-law could not be agreed upon. Staff presented these issues to Council during Committee of the Whole meetings for formal direction. The issues raised focused on:

1. Sign Duration
2. Planter Box Signs
3. Separation Distance Between Signs
4. Community Variations for Mobile Signs
5. Special/Community Event Signs
6. Inflatable Signs

DISCUSSION:

Scope of the By-law

All sign provisions effecting temporary signs will be consolidated into one by-law (see Attachment 1). This will enable the sign industry, businesses, and staff to be more effective in determining the applicable requirements for temporary signs. The proposed by-law classifies temporary signs into four categories:

1. signs that are prohibited
2. signs that Don't Require a License
3. signs that Require a License
4. signs within HRM Public Right-of-Ways

Within each category of signs, the proposed By-law contains provisions that address:

1. various types of signs
2. maintenance provisions
3. enforcement and penalties
4. size and location criteria
5. license duration
6. number of signs permitted
7. existing signage and community plans
8. safety measures
9. application requirements
10. appeal provisions
11. administration

The proposed By-law will simplify and standardize, where possible, temporary sign provisions within the region. This will help businesses and groups/organizations to apply for and receive temporary sign licenses and to improve streetscapes. Further, the By-law will improve how HRM administers and enforces sign provisions.

Implementation:

1. Enforcement

The existing sign regulations have two significant problems: timely removal of signs and the difficulty of collecting evidence to determine who to charge (the sign company, the business using the sign or the property owner). The proposed By-law gives HRM the ability to use an appropriate remedy, should compliance not be gained. Illegal signs, or those placed in violation of their license, can be issued a summary offence ticket for any offence (any or all individuals associated with the sign). Further, such signs can be removed from public or private property through the use of a towing company. Notice would be given to the owner prior to removal of a sign from private property.

A sign that has been removed (towed) will be released upon payment of towing and impoundment fees. If a sign is not claimed, the By-law allows the Municipality to lien the property to recover the costs of sign removal. Prosecutions before the courts can also be sought, which is useful for repeat offenders.

2. Communication Program

A key enforcement tool of the By-law will be summary offense tickets. Upon adoption of the By-law, HRM will apply to the Province for the authority to issue summary offense tickets. This registration process takes approximately 6 months. Therefore, staff are proposing a phasing in period of 6 months for By-law S-800 once Council has given final approval to the By-law. During the "phasing in" period, staff will communicate the requirements of the By-law to the general public and business community.

A fact sheet, outlining the "highlights" of the By-law will be prepared which will summarize the new requirements, time lines, and fees. This education program will be coordinated through HRM's Corporate Communications Office and will include such measures as:

- (i) advertisement in Local Newspapers;
- (ii) notification through the HRM Today section of the "Naturally Green Newsletter" which is mailed out to 155,000 households;
- (iii) information to be posted on the HRM Website;
- (iv) notification through various business associations such as:
 - (a) Chamber of Commerce;
 - (b) Rotary Clubs;
 - (c) Canadian Federation of Independent Businesses;
 - (d) various Business Commissions;
 - (e) Building Owner's and Managers Association (Atlantic);
 - (f) Development Liaison Group;
 - (g) permanent and temporary sign industries;
 - (h) Urban Development Institute; and
 - (i) HRM owned business parks; and
- (v) notification as directed by Council.

3. Required Amendments

- (i) *Municipal Planning Strategies and Land Use By-laws:*

Amend all municipal planning strategies and land use by-laws to indicate that temporary signs are to be regulated under By-law S-800. Attachments 2 to 42, inclusive, contain the required amendments.

- (ii) *Administrative Order 15 (Respecting License, Permit, and Processing Fees):*

Amend Administrative Order 15 to standardize license fees for temporary signs and to incorporate the permits fees for permanent signs removed from Dartmouth's and Halifax's sign ordinances. Attachment 44 contains the required amendments.

- (iii) *Encroachment By-law:*

The Sign By-law provides the ability for certain signs to be located within HRM right-of-ways. By-law E-200 "The Encroachment By-law" currently gives staff the ability to approve

awnings and canopies, but not sandwich board signs and banners. Attachment 43 contains proposed amendments to the Encroachment By-law which would enable staff to review and approve such signs.

4. Permanent Signs

Upon adoption of the proposed By-law, HRM will repeal the Dartmouth and Halifax sign ordinances and the permanent sign provisions contained therein will be transferred into the applicable land use by-laws (see Attachments 36, 37, 40, 41, and 42). By eliminating the sign ordinances, administration of all signage (temporary and permanent) shall be the responsibility of HRM's Development Officers. This will allow for more consistent administration of signage. However, permanent sign provisions will still vary throughout HRM as well as administrative fees. The permanent sign industry has requested that HRM initiate a similar process to review permanent sign provisions.

5. Development Agreements

Representatives of the mobile sign industry expressed concern that many development agreements prohibit mobile signs which have led to an uneven playing field for businesses. The proposed By-law will address most of the issues that required mobile signs being prohibited in the past. Therefore, industry is requesting that HRM only consider prohibiting mobile signs in unique situations to ensure businesses operate on a level playing field.

6. Future Amendments to the By-law

If Council determines the By-law is not achieving its objectives in the future, amendments can be made without grandfathering of signs as the amendments will apply when a temporary sign license is issued or renewed.

BUDGET IMPLICATIONS:

The adoption of this By-law does not in itself have an impact upon the budget. Similar by-laws already exist within HRM. It should be noted however that the adoption of this By-law carries expectations of a higher level of service and enforcement than can not be accommodated under current budget and staff resources. This is discussed further below.

In order to improve the level of service and enforcement of existing land use compliance issues and in anticipation of the proposed By-law, an additional two Community Standards Officers were hired under the previous budget year for a total of 5 officers. To properly administer this By-Law, one additional Community Standards Officer is required. It is estimated that \$60,000 will be generated during the 2007/08 budget year from the proposed license fee. This will not be sufficient to fund the additional officer. Staff will strive to find sufficient funds within the existing Planning & Development budget. The additional FTE will not be added unless or until these funds are identified.

Costs associated with sign removal and impounding will be recovered when the sign is released to the owner or failing that a lien will be placed on the property to recover the costs from the property owner.

FINANCIAL MANAGEMENT POLICIES/BUSINESS PLAN:

This report complies with the Municipality's Multi-Year Financial Strategy, the approved Operating, Capital and Reserve budgets, policies and procedures regarding withdrawals from the utilization of Capital and Operating reserves, as well as any relevant legislation.

ALTERNATIVES:

The following alternatives are identified:

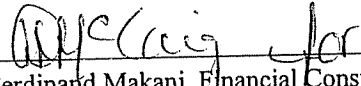

1. Regional Council can adopt staff's recommendations for the reasons stated above. This is the recommended course of action.
2. Regional Council may amend staff's recommendations. Depending upon the extent of amendments, a Supplementary Report may be necessary in order to draft the new By-law amendments.
3. Regional Council may wish to reject the By-law and continue to regulate temporary signs under the various land use by-laws and sign ordinances.

1. Amending the Implementation Section of the Strategy by adding new pre-amble and policy immediately following Policy IM-22:

**Amendments to
Municipal Planning Strategy for Halifax**

The Municipal Planning Strategy for Halifax is hereby amended by:

1. Amending Section II (City -Wide Objectives and Policies) by adding new pre-amble and policy immediately following Policy 14A-8:

“Temporary Signage:

In recent years, HRM has received a number of complaints regarding signage throughout the region, especially along major transportation routes. Most of the concerns raised with signage deal with the location, number, and maintenance of mobile signs, sandwich boards, posters, inflatable signs, planter box type signs, and banners (known as Temporary Signs). To address the lack of adequate sign provisions and effective enforcement tools for temporary signage, HRM established a license by-law under the Municipal Government (HRM By-law S-800). Therefore, any reference or provision relating to temporary signs within the land use by-law is superceded by the provisions of By-law S-800.

Policy 14B-1 The land use by-laws shall contain sign provisions for those signs not regulated under HRM By-law S-800 (A By-law Respecting Requirements for the Licensing of Temporary Signs).”
