28 November, 2015

Mayor Mike Savage and HRM Council Members

**Permission for Royal Canadian Air Force Aircraft Participation At Fall River Canal Days on Tuesday, 1 July, 2015**

Dear Mayor and Councillors

Subject to permission being granted by the HRM Council and Mayor, the Royal Canadian Air Force will consider making an **appearance** during the Fall River Canal Days on Tuesday, 1 July, 2015 at Fall River, Nova Scotia at approximately 11:15 A.M.

Fall River Canal Days takes place each year as a community celebration in Fall River, which is astride the historic Shubenacadie Canal. A Royal Canadian Air Force aircraft participation in the event in previous years has been one of the highlights of Canal Days.

The Fall River Canal Days requests Mayoral and Council permissions be granted for a Royal Canadian Air Force aircraft to perform a demonstration or fly-by as low as 500 feet over the North end of Lake Thomas in Fall River. We are of the firm belief that the Royal Canadian Air Force participation will create excitement for those in attendance and further contribute to the pride that service families have in their community.

May we respectfully suggest that the wording of the requested motion be as follows:

"That Halifax Regional Council grant permission for a Royal Canadian Air Force aircraft to perform a fly-past at an altitude as low as 500 feet over the north end of Lake Thomas in Fall River on Wednesday, July 1, 2015 at approximately 11:15 A.M. in conjunction with Fall River Canal Days celebrations as per the request of the Fall River Canal Days Committee."

Once again we thank you for your considerations and invite you to join us on July 1<sup>st</sup>.

Yours aye,

Original Signed

Michael Creighton

Co-Chair
