### 1. Legal Matter - Harbour Solutions Project

It is recommended that HRM decline to enter into negotiation with the Central Halifax Community Association (the "Complainant") on the terms requested by the Complainant with regard to the human rights complaint #02-0031. Further, that HRM advise the Human Rights Commission of its decision not to engage in settlement discussions at this time, and await the conclusions of the next step in the formal complain process, formal investigation by an officer of the Commission.
