

Councillor Request for Information

Date of Council Meeting: November 18, 2003

Subject: Amendments to Labour Standards Code -
Implications to HRM and Harbour Clean Up

Request:

I would like the above item to be added to the agenda of the Regular Council Meeting of November 18, 2003.

Reason:

Recent legislative changes will have a negative impact on HRM with regards to the Harbour Solutions Project and capital works projects. I am looking for Council to endorse sending a letter to the Minister of Environment & Labour, asking for an exemption for municipalities and labour related to tendered capital works projects. As well, I would like a report from staff assessing these implications prior to our budget discussions.

I would like this response as:

An Information Report to Regional Council

Linda Mosher

Councillor Linda Mosher , District 17
