Request from the Floor

Date of Council Meeting: Tuesday, February 18, 2014

Subject: Case 16713: Development Agreement - Herring Cove Village

Motion for Council to Consider:

Request a staff report to reinstate fencing along the proposed public pathway between the Herring Cove Village subdivision and properties abutting PID # 41361528 and # 41361536.

Reason:

The public and Community Council were of the understanding that a public pathway, including chain link fencing, would be created as part of the Herring Cove Village development. The Developer applied for a variance to have the pathway, and subsequently the fencing, removed from the development agreement. The request for variance was approved by HRM staff as a non-substantive amendment without the matter being brought back to the Community Council/public for notification/discussion.

Outcome Sought:

That the fence along the proposed pathway at PID #41361528 and 41361436 be reinstated as originally proposed to protect and separate abutting private property from the public access to and from the subdivision and Herring Cove Road.
