

June 29, 2012

Mr. Richard Arnold  
Nova Scotia District Manager  
Industry Canada - Spectrum Management - Nova Scotia District Office  
50 Brown Avenue  
Dartmouth, NS B3B 1X8

Dear Mr. Arnold,

**Re: Process for Public Notification/Consultation for Telecommunications  
Tower Applications**

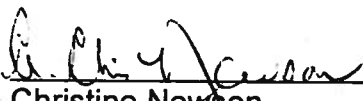

Please be advised of the Western Region Community Council's motion, passed on June 25, 2012, in regard to the process for telecommunication tower applications.

**MOVED by Councillor Lund, seconded by Councillor Adams that the Western Region Community Council request that Industry Canada, in consultation with HRM staff, come forward with a clear process for telecommunication tower applications including an improved public notification and consultation process. MOTION PUT AND PASSED.**

In response to concerns raised by area residents in regard to the lack of notification and public consultation on changes to an original application for a telecommunications tower for 2699 Old Sambro Road (Case 17167), the Western Region Community Council passed the above motion requesting that Industry Canada, in consultation with HRM staff, prepare a clear process for such applications including an improved public notification and consultation process.

Please be advised of the Community Council's request.

Sincerely,

  
\_\_\_\_\_  
Christine Newson  
Legislative Assistant for the  
Western Region Community Council
