MINUTES OF THE NOVEMBER SESSION OF
THE THIRTY-THIRD COUNCIL OF THE
MUNICIPALITY OF THE COUNTY OF HALIFAX.

November 8th., 1960.

Morning

DAY SESSION

The November Session of Council convened at 10:00 a.m., Tuesday, November 8, with Deputy Warden Burriss in the Chair.

Council opened with the Lord's Prayer.

Deputy Warden Burriss explained that Warden F. G. H. Leverman was attending the Canadian Federation of Municipalities in Ottawa. He also reported that Councillor Archibald would be out of hospital soon.

Mr. Hattie read the announcement of the Public Hearing re:

- (a) Proposed Zoning as a Watershed Zone - the Watershed of Webber, McCabe and Tomahawk Lakes;
- (b) Amendments to Zoning By-Law.

Mr. Hattie explained that the descriptions of these properties had been duly advertised. He read a letter from the firm of Stewart, Smith and McKeen representing Moirs Limited, in regard to their protest to the proposed zoning.

Mr. Cowan, representing Moirs Limited pointed out that if Moirs Limited owners of some 1,200 acres of property included in the proposed rezoning and other owners were forced to strip their lands due to rezoning, that it would render much of the land unusable for the purpose for which it was to be rezoned. Mr. Cowan suggested that it would be unfair to depreciate the land by rezoning and then be in a position to purchase this land at a lower price because of its declined value. He added that Moirs Limited was quite prepared to talk terms re sale of this land providing today's values were used.

Mr. R. J. Butler, representing a number of the property owners in the area concerned in the rezoning, estimated that he

represented about 90% of those concerned in the Sackville Area. He stated that his clients were against the proposed rezoning, however, he did not want to give the impression that they were unwilling to co-operate with the Municipality with its heavy responsibility. Mr. Butler asked what the Municipality was prepared to do in the way of expropriation or other means of acquiring their properties. They feel that the proposed rezoning would be greatly unjust and suggest that a considerably smaller area could be rezoned, so as not to affect these properties and still serve the necessary purpose. He pointed out that if the zoning is invoked it would tie up valuable land and land which is becoming more valuable. He suggested that consideration be given to the possibility of a water purification plant as an alternative. He asked that the land not be rezoned in any event. Mr. Butler pointed out that the property owners in this area had paid a great deal in taxes and that with the proposed rezoning these people would be greatly restricted in not being able to sell their properties or build upon lots which they now own.

Mr. George Piercey, representing Col. S. C. Oland, who owns the property known as the Linwood Farms, an attraction of considerable note, in its well-kept property, prize livestock and also some timberland. Mr. Piercey said that it would appear to a layman, that some of the land in the proposed rezoning was not necessary for the purpose intended, that the area of the Linwood Farms which would be most seriously effected would be near Webber Lake from the Windsor Road to McCabe Lake and Lucasville to Webber Lake. It seems, he said that the drainage is sharply toward the lower end of Webber Lake, a man-made pond supported by a dam at Hefflers Mill. Stumps still show through the water in this pond. It is suggested therefore, that the value

of Webber Lake for water, for the purpose intended would be very doubtful. Mr. Piercey admitted that some saving could be effected by the use of Webber Lake, but he felt that it would not be sufficient to substantiate the cost of acquiring the land between Webber Lake and the Lucasville Road. He said that he felt the drainage should interfere with the purity of the water. In closing, he said that negotiations with Colonel Oland re these properties could be settled amicably and that they felt very strongly that unless the land was a definite necessity for watershed purposes it should not be included in the rezoning.

Mr. B. A. Gaffin represented George Deal, Upper Sackville and Robert H. Martel, Middle Sackville, owners of separate lots of land. Mr. Gaffin stated that in the case of Mr. Deal, he had his life savings tied up in his home, in the area effected by the proposed rezoning at Middle Sackville. He pointed out that the people in that area would be violating the zoning By-Law by living in their properties and this was, he felt very unjust. He said that in the past, great hardship has come about as the result of similar zoning and for these reasons his clients feared for their security, because of the proposed zoning.

Mr. Flinn, representing G. Royce Heffler Limited, who own and operate a lumber business, which was established 125 years ago on the property effected by the above, it is a one quarter million dollar industry. It operates two mills in this particular area and the present cost of transporting the raw materials to the mill is about one dollar per thousand, whereas if the rezoning were to go through, the cost of transportation alone, due to newly bulldozed roads being required, would be prohibitive. This business has tripled in extent in the past few years since the present owner took over in 1953. The mill alone employs from 15 to 20 men from Sackville and the sub-

contractors another 15 to 20 men. If this rezoning were to become effective it would mean the close-down of this industry and the unemployment of the men concerned.

Mr. Maxwell, a homeowner in the effected area pointed out the problem of purification of the water, he said there was nothing to prevent dead animals from getting into the water streams and thus contaminating the water, therefore a purification plant should be considered.

Councillor Hanrahan said that it was not the intention of the Council to cause hardship on property owners, but the property was in the throes of being rezoned on a temporary basis only and ultimately the plan was to use Tomahawk Lake, which is much larger than the Webber, McCabe chain. He pointed out that a source of water was necessary.

Councillors Hanrahan and Baker moved:-

"THAT Council defer the zoning of this Watershed of Webber, McCabe and Tomahawk Lakes, at the present time, for further study and negotiations, to see if some parts of this Area presently proposed as a Watershed Area, cannot be deleted."

Councillor Curren expressed agreement with the presentation of the Barristers. He felt that a portion in the proposed rezoning, including the Mill area and Oland's farm was below the lake and should not be included in the rezoning. That area, he explained, drains the other way instead of toward McCabe's Lake. Councillor Curren could not see how it could drain back to McCabe and Tomahawk Lakes, he also pointed out that the homeowners in the Lucasville area and the Mill establishment stood to lose a large amount from the rezoning and he felt for these reasons the Council should try to protect Tomahawk and McCabe Lakes for the present, as these would be enough for the purpose intended in a smaller area.

Councillor Blackburn emphasized Councillor Hanrahan's remarks, that there was no intention of causing undue hardship to anyone, but the source of water at the same time, was a vital problem. He pointed out that this was but a preliminary hearing for the purpose of determining where the Municipality stood with regard to the feelings of those home-owners effected; so as to be better prepared to proceed with the solution of the problem at hand.

Councillor Stubbs asked whether it was not possible that if no immediate action were taken the Council may find itself with the same problem five years from now and in addition faced with even greater developed residential areas.

Councillor Baker said that because so many people had invested their life savings in these homes, he did not want to see them treated as the people in District 10, by similar rezoning and reiterated that this was not the intent of Council, but the rezoning was but a proposed temporary solution.

Councillor Settle, remarking on Councillor Stubbs' query, stated that in talking in terms of deferment of the decision, it was not meant to be deferred over a three to five year period; and that it was entirely possible that the County would have to take the big step to Tomahawk Lake, instead of attempting a more economical short-term project, since this would be done untimately anyway.

Councillor Daye also expressed his feeling that a closer look should be taken immediately at the Tomahawk Lake project, because of the impending hardships imposed on home-owners in the area due to the acceptance of the temporary measure.

Mr. Cox, Solicitor for the Municipality, pointed out that under the terms of the proposed rezoning the home-owners would maintain their home status, as they had in the past, but that restrictions for the duration of rezoning would only be in terms

of a ban on subdividing.

Councillor Henley favoured an immediate approach to the whole matter. He felt that this hearing had been well justified by the representations heard this morning.

Councillor Blackburn wondered whether there would be any objection from home-owners, Olands and Hefflers, if the Council decided to zone Tomahawk Lake only.

The motion of Councillors Hanrahan and Baker was put and the motion carried.

From the gallery, a Mr. Maxwell, home-owner in the proposed rezoning area, said that with the coming freeze-ups he would like to see the building permit restriction lifted that residents might proceed with putting up storm windows and so on to prepare for the cold weather.

Solicitor Cox ruled that there was a protecting provision in the Municipal By-Laws covering non-conforming uses and just because the zoning takes place does not mean that homes cannot be used in a manner in which has been done in the past.

Councillor Blackburn stated that building inspectors had not refused building permits in his District despite the fact that a temporary ban was placed upon the permits at October's Council Session.

Solicitor Cox ruled that when this notice of intention was given to rezone, building permits were suspended for sixty days.

Councillor Baker suggested that the ban be lifted. He observed that if an individual acquired the land in this zone and started to build, this land would be lost for acquirement by the Municipality.

Mr. Hattie read the original resolution dealing with the ban.

Councillor Henley suggested that on certain sections of the proposed rezoned land the band be suspended.

Mr. Cox, the Solicitor, explained that the ban would be in effect according to the resolution for sixty days beginning October 11.

Following some discussion in regards to the restriction of building permits, it was moved by Councillors Blackburn and Curren:-

"THAT the restriction on the granting of building permits contained in the resolution of Council, dated Oct. 11, 1960, be amended by confining the restriction to the catchment area of Tomahawk Lake." Motion carried.

The proposed amendments of the Zoning By-Law as outlined in the Notice of Intention at the October Session of Council were read by Mr. Hattie.

Mr. Hattie stated that there had been no written objections to these amendments and there were no objections from the people in the gallery.

It was moved by Councillors Henley and Redmond:-

"THAT the following amendments to the Zoning By-Law be approved:-

A BY-LAW TO AMEND THE ZONING BY-LAW

1. Section 59 of the Zoning By-Law is amended by striking out the words "Chapter 24 of the Revised By-Laws of the Municipality of the County of Halifax, 1957, The Mobile Home Parks By-Law, and amendments thereto" and substituting therefor the words "the Mobile Home By-Law of the Municipality of the County of Halifax, and amendments thereto".

2. Section 18 of the Zoning By-Law is amended by striking out the words "or a G Zone" in the second line thereof and by striking out the words "and G Zone respectively" in the third and fourth lines thereof. Motion carried.

Mr. Hattie read a letter from Mrs. Evans acknowledging receipt of the flowers.

Mr. Hattie read a letter from the Dept. of Highways in regard to the 35-mile speed zone in Woodlawn.

Mr. Hattie read a letter from J. E. Moore and Sara Silverman concerning the rezoning for an apartment building.

Concerning the above matter, Councillor Settle, as Chairman of the Planning Board, advised that this request for rezoning had been withdrawn for the time being.

Councillor Flawn presented a letter of acknowledgment from the Principal of the Terence Bay School, stating appreciation re the new school, which he asked to be incorporated into the minutes.

Councillors Williams and Daye moved:-

"THAT the minutes of the Meeting of October 11th., be approved." Motion carried.

Mr. Hattie read the Report of the Municipal School Board.

Councillors Curren and Settle moved:-

"THAT the Report of the Municipal School Board, be adopted." Motion carried.

Councillor Flawn referred to the proposed new school to serve the Clam Bay - Clam Harbour Area, and asked whether a library for this school was intentionally excluded.

Mr. Marriott replied that it was not planned to have a library in this four-room school at present, but a library would be added at a later date, if there should be a further addition to this school.

Councillor MacKenzie brought up the well problem at the Tangier High School; he reported that this morning the janitor had told him there was still very little water and what there was, was not fit for use. He pointed out that this school had been carrying on under very difficult conditions all summer. He also mentioned that of the 150 folding chairs ordered by that school, only fifty had been delivered. He requested that the remainder of the order be shipped. Councillor MacKenzie reported that the principal of that school had requested the

use of buses for an educational tour to transport the students to a Shakespearean Play. He asked why this request was refused as he understood the buses could be used for one educational tour each year. He asked Mr. Marriott also for some assurance that there would not be permissive teachers in the high school next year, stating that in the present year there were two on the staff.

Mr. Marriott said that with regard to the well problem, that the trustees should write to the Municipal School Board of their request, that he did not know whether this particular problem, which was a general one throughout the country this summer was a local problem or one of nature, but that it with others would receive serious consideration. Regarding educational tours, he said it was the policy that each bus could be used for one such tour each year, however, he had not received any such request from the Tangier principal, but he would check with Mr. Briggs, to see if this request had been received in the office. Mr. Marriott said that he could not guarantee that there would not be permissive teachers in that or any other high school, much as he would like to be able to do so. He said that obtaining qualified high school teachers was becoming more of a serious problem and it was his personal opinion, that the high school children in ten years would not have qualified teachers.

Councillor MacKenzie replied that a letter had been received from Mr. Marriott's office stating that the bus could be used for a tour at the rate of forty cents per person. Mr. Marriott had no knowledge of such a letter.

Councillor Baker asked whether the Municipal School Board supplied first aid supplies to the schools, including folding cots.

Mr. Marriott replied that it was the policy of the Municipal School Board to provide first aid kits in every school in the Halifax area, as far as folding cots are concerned this was a matter which had not before come up. He said that usually there was a settee or couch in most schools, which could be used for first aid purposes.

Councillor Baker cited an incident in the Shad Bay School recently, where a boy had fallen from a tree and had broken his leg and since there was no place else, he was laid on the floor where he remained for two hours until medical aid arrived. He said that the Terence Bay Home and School had provided first aid supplies for that school, but he felt that especially in outlying areas, where hospitals and medical assistance were not readily available, some form of folding cot should be provided in the schools for such unhappy incidents, which were bound to occur.

Mr. Marriott replied that on his last visit to the Shad Bay School, their furniture had been ordered, but at that time had not been delivered.

Councillors Redmond and Daye moved:-

"THAT this Council approve a borrowing resolution, in the amount of \$187,136.00, for school construction." Motion carried.

Mr. Hattie read a letter from the trustees of the Terence Bay School.

Councillor Baker explained some of the history of the sinking of the Atlantic in Terence Bay Harbour, saying that the survivors had been brought ashore at Terence Bay, taken care of and those who died had been buried there and a monument erected in their memory, for these reasons some of the people felt that the name of the school should include the words "Atlantic Memorial".

Because of possible confusion with the name of a nearby school,

Councillors Hanrahan and White moved:-

"THAT the School at Terence Bay be named "The Terence Bay School"." Motion carried.

Councillors Spears and Baker moved:-

"THAT Council adjourn until 2:00 p.m." Motion carried.

Afternoon

DAY SESSION

The afternoon session of Council convened at 2:00 p.m., Deputy Warden Burris in the Chair.

Councillor Moser asked whether the students coming in to the Hubbards School had to pay tuition.

Mr. Hattie replied that they paid the amount of tuition set down by the Department of Education for the Province.

Mr. Hattie read the Report of the School Capital Program Committee.

Councillor Flawn added to this report, that since it had gone to print, it was to be noted that although the Timberlea School was complete there was a problem in regard to a well on neighboring property; this was receiving immediate action, and that the Lake Loon School was ready for its final inspection which he expected to take place the following morning. On item 5(d), the Rockingham School, Councillor Flawn reported that the other building to be used for a temporary school had come into use as of this morning.

Councillors Flawn and White moved:-

"THAT the Report of the School Capital Program Committee, be adopted." Motion carried.

The Clerk read the Report of the Public Service Committee.

Councillors Hanrahan and Redmond moved:-

"THAT the Report of the Public Service Committee, be adopted."

Councillor Spears, referring to page two, paragraph two of the report, asked whether anything had been accomplished with regard to the fourteen abutters. Also, regarding the proposed increase in the burning of garbage in the Municipal incinerator, Councillor Spears asked who was going to pay the increase.

Councillor Hanrahan said that it was up to these areas using the Incinerator to pay the increase and that he did not think it fair to expect payment to come from the County as a whole, because many areas did not use the service. He explained that it was a debt which had to be paid, that the present levy would not cover the salaries and that it could not be charged to general revenue.

Councillor Curren said that before the establishment of the Incinerator, the people paid so much per day or per can for garbage disposal, now it looked as though they were going to pay more than they were paying under the old system. He pointed out that if there is a debt to be collected for 1960, in order to levy back from last year, there was going to be a very large increase and that the district rate would have to be doubled.

Councillor Blackburn said that the County did not have very much choice, that he did not think it fair that this debt be charged to General Revenue, that there was a deficit from 1959 on garbage; he pointed out that some of the districts involved would soon be going into the town of Dartmouth and it was only fair that they should pay their share of the extra cost.

Councillor Redmond said that the Incinerator had been established only to serve certain districts, he believed these to be Districts 14, 24 and 8, nevertheless, it was established definitely to serve specific areas. Now it is found that the costs are more than originally estimated and he felt that the people served by the Incinerator should definitely pay for this service, which was provided for them. He felt that the deficit was no fault of the Committee, that the Incinerator was a new venture in the County and that the Committee had conscientiously studied various methods of operation; for these reasons he felt it a responsibility of those people who had requested the service

and received it.

Councillor White pointed out that the Public Works Committee was in complete accordance.

Councillor Moser asked who had made the error which had caused so large a deficit in the Incinerator operations. He pointed out that this case looked similar to the Watershed issue in the morning session, where highly paid engineers were hired by the County only to make costly errors which the County had to pay for.

Councillor Curren said that he had been a member of the Garbage Committee, when it first began and that it was the decision among Districts 14, 28 and 8 that an Incinerator be established. He said that plans had been made for these three districts, but despite this and from the very beginning the whole suburban area had been sending garbage, therefore, the Incinerator was being asked to do a job for which it had never been intended. Councillor Curren reported that large quantities of glass and tin, etc., were included in the scrap for burning from all over the County and not just the districts in the original plan. For this reason he felt that the whole County was just as responsible as the three districts who requested the service in the first place.

Councillor Spears pointed out that District 8 had come in only a year ago after Districts 11 and 12.

Councillor Redmond replied that before the Incinerator, that in Districts 11 and 12, they had garbage disposal facilities which were quite adequate at the time, however, as difficulties developed in finding suitable disposal areas including the County Hospital property, he had recommended to Council the establishment of an Incinerator. He said that this was something new and for this reason mistakes were bound to be made, that it would require a million dollar structure to handle the amount and type of

garbage that the Incinerator was being expected to handle and that the only answer was in effective separation of the garbage as was done by the Town of Dartmouth and other areas.

Councillor Moser explained that his criticism was not of the Committee.

Councillor Hanrahan said that he hoped Councillor Moser was not referring to the County Planning Engineer for he had nothing to do with the design of the incinerator.

Councillor Settle observed that no mistake had been made in the location of the Incinerator and that no Incinerator works well until there is a separation of garbage, he said that this is the responsibility of the person putting the garbage out and that if the proper materials were being put into the Incinerator it would be doing the job it was intended for at a cost very near that estimated. He explained that because of the large amounts of glass, tin and other such materials being included in the burned garbage, the labor force had to be increased a great deal to keep the grates cleaned.

Councillor Flawn stated that a lot of garbage had been burned for a long time, 12 to 13 tons per week from his district alone, which would amount to about 624 tons a year, and that is only a small part of the total. He asked whether the total deficit included that of 1959 and whether it included damages caused by private contractors. Councillor Flawn felt that a good look should be taken at the \$4.75 rate proposed to be levied on the districts because the people who have paid cash, such as individuals and private concerns, would not have to pay the extra.

Councillor Spears could not see how the deficit could be collected from the districts when it was not their error.

Councillor Hanrahan explained that the figure was on a pro

rata basis of the tonnage handled.

Councillor Stubbs, in District 14D said that although a lot of the people in that district had not used the Incinerator, their district levy last year had helped to carry the cost and that it would be discriminatory now to charge these people for the deficit who had never used the Incinerator.

Councillor Curren said he would like to know at the present time how many private individuals were using the Incinerator, he felt that the first problem the County must look after was the burning of the garbage for the people it was intended to serve excluding the outside people.

Councillor Blackburn said that this was a County owned Incinerator and that the money was backed by the County as a whole.

Councillor Baker thought it not fair to make up the deficit from general expenditure, that those who wanted the service and used it should pay the deficit.

Councillor Redmond pointed out that the Municipal Office had a list of every person who delivered garbage to the incinerator and asked that the lawyer tell the Council whether the users of this service could be charged the increased rate for garbage delivered from the beginning of 1960.

Councillor Stubbs suggested that if the increase were put into effect immediately instead of the first of the year, it would help to decrease the deficit for the year.

Councillor Curren asked what portion of the 16 ton a day burning included individual deliveries .

By unanimous agreement this discussion was deferred until after the presentation of Municipal Scholarships.

Warden F. G. H. Leverman took the Chair during these presentations.

Warden Leverman said that this was one of the happiest moments in the Council's work during this year, to present scholarships to these very lovely girls and fine boys, who were deserving students. He introduced Professor Mowatt of Dalhousie University and asked him to make the presentations and to address the scholarship winners. Mr. Moses from the Dept. of Education, read the citations.

This year the following students were successful in obtaining Bursaries:

Grade XII Students Taking Higher Education

Edgar Blinn	Head St. Margaret's Bay	Hfx. West Mun. High
Michael Casselman	36 Colindale St., Armdale	" " " "

Grade XII Students Going to Normal College

Jeanette White	Eastern Passage	Port Wallis, Westphal
Janice McCurdy	Middle Musquodoboit	Musquodoboit Rural High
June Dickie	20 Melody Dr., Rockingham	Hfx. West Mun. High
Marion Parker	Owl's Head Harbour	Rbt. Jamison Con. School
Shirley Fisk	Middle Musquodoboit	Musquodoboit Rural High
Shirley Josey	Spry Harbour	Central Consolidated High

Grade XI Students Taking High Education

Barbara Curry	Bedford	Hfx. West Mun. High
Reid Coolen	Hubbards	Shatford Mem. School

Grade XI Students Going to Normal College

Lorraine Roma	West Chezzetcook	Rbt. Jamison Con. School
Mary Fraser	Timberlea	Hfx. West Mun. High

Warden Leverman, in introducing Professor Mowatt, said that his presence graced the building and asked that he give a few words of advice to this group of very inspiring students.

Professor Mowatt, in his remarks, congratulated the Council

for its wisdom in establishing these scholarships, he said there was no better investment than the investment in youth and that its results would be rewarding. Professor Mowatt stated that as he was engaged in the training of teachers, it gave him very great pleasure to see that most of these recipients were entering the teaching profession, for, he said, teaching is a profession, the most important of all for the community as a whole. To be a good teacher, he said, the first essential is to have the knowledge, we have schools and teachers because the parents cannot do the whole job. The teachers must give the children the tools of learning, reading, writing and arithmetic. Another thing a good teacher must have is a sympathetic feeling toward and a genuine love and understanding for the children, and this is something that TV, radio, nor any other mechanical medium can provide. These media can never understand or adjust to the varying needs of the children. A third requirement, according to Professor Mowatt, is a sense of humour, which is also quite necessary, for you cannot take what happens too seriously and if you can laugh at yourself and with others, it is of great benefit to you. He wished all of the young people receiving scholarships the very best of fortune in the future.

Warden F. G. H. Leverman expressed his appreciation and that of the Council, for the contribution Professor Mowatt made in the presentation of the Scholarships and for his remarks. He complimented the students in qualifying for their scholarships and wished them on behalf of the Municipality of the County of Halifax and its Councillors, the greatest success in their future endeavours.

Edgar Blinn, one of the scholarship award winners, thanked the Council on behalf of his group; he said that they were very well received and appreciated and he was sure that these scholar-

ships would encourage he and his fellow students to work harder and deserve them even more.

Resuming the discussion on the Public Works Report, Mr. Hattie, in reply to Councillor Curren's question, said that private garbage delivery came from such areas as Tufts Cove, Service Stations, and individual Contractors, etc.

Mr. Fraser, Municipal Engineer, stated that of the total amount, approximately one ton per day came from individuals, and this represented only one out of the 25 tons, which was going through daily at the present time. He said that this was certainly not a big amount and he felt that this represented garbage that would otherwise find itself on the highways.

Councillor Flawn wondered whether the additional cost proposed in the report would discourage these individuals from having their garbage burned at the Incinerator. Would they, he queried, keep their \$4.75 and dispose of their garbage along the highways.

Councillor Redmond observed that there was a Provincial Law prohibiting the disposal of garbage within 30 feet of the highways.

Councillor Blackburn asked for a ruling from the Solicitor as to whether the deficit could be made up through Capital cost since it included the cost of repairs, etc.

Solicitor Cox replied that if this was purely an operating cost, which it seemed to be, there was no provision to cover it under Capital Cost.

Councillors Spears and Balcome moved an amendment to the motion:-

"THAT the paragraph of the Public Works Committee Report, dealing with the Incinerator be deleted and referred back to the Committee for later report to Council."

The amendment to the motion was defeated on a standing vote,
5 FOR and 14 AGAINST.

Councillor Stubbs contended that the wording of the amendment was ambiguous and asked whether this was for the districts that levied a garbage rate and could it be charged those Districts having a burning rate only.

Councillor Hanrahan said that this increase would apply to anyone from whom it could be collected. He pointed out that since District 14 was one of the originators of the Incinerator, he was surprised to see the two Councillors from that district vote against the amendment. He said that surely they had the courage to stand behind something which they had started.

Solicitor Cox said that according to the By-Laws, a burning charge was to be levied upon the districts using the service, and if there was a deficit the districts should be levied further to cover the deficit.

Councillor Flawn said that District 28 did not levy a burning rate for 1960, for they had sufficient left over from 1959 to cover it.

Councillors Hanrahan and Redmond's motion to accept the report of the Public Works Committee was put and the motion carried.

Councillors Balcome and Spears moved:-

"THAT this Council approve a borrowing resolution in the amount of \$20,000.00 for Winter St. and Downs Ave. sewer extensions."
Motion carried.

Councillors Spears and Williams moved:-

"WHEREAS the Council is of the opinion that the hereinafter described lands are required for the purpose of laying out, opening, constructing, repairing, improving or maintaining a street, curbs, sidewalks, gutters, bridges, culverts or retaining walls on Rocklyn Road in Purcell's Cove, in the County of Halifax and Province of Nova Scotia;

AND WHEREAS the Council is of the opinion that no agreement can be made for the purchase thereof;

THEREFORE BE IT RESOLVED that the Council expropriate the hereinafter described lands for the purpose of laying out,

opening, constructing, repairing, improving or maintaining a street, curbs, sidewalks, gutters, bridges, culverts or retaining walls on Rocklyn Road, and that the compensation for the said lands be \$1.00.

AND BE IT RESOLVED FURTHER that the lands to be affected by these rights are:

ALL that certain lot, piece or parcel of land situate, lying and being at Purcell's Cove in the County of Halifax and being a portion of the J. Evans lot on Rocklyn Road, said portion being marked "A" on a plan certified by John F. Ross, P.L.S. on March 21, 1960, and being more particularly described as follows:

BEGINNING at an iron pipe at the Southeast corner of a lot of land owned by W. C. Hatt;

THENCE running N 04° 56' E along the Eastern boundary of said W. C. Hatt lot a distance of 39.03' more or less to intersect the circumference of a circle of 35' radius, of which the last described line is a portion of the chord distance of 42.55';

THENCE Southeasterly and southerly along the circumference of said circle, being also the Western boundary of said J. Evans lot, an arc distance of 41.6' more or less to the Northern boundary of Rocklyn Road;

THENCE N 82° 34' W along said Northern boundary of Rocklyn Road a distance of 2.31' to the place of beginning.

Motion carried.

Councillors Hanrahan and Settle moved:-

Easement required from Thomas Moore, Tufts Cove, Halifax.

ALL that certain lot, piece or parcel of land situate, lying and being at Tufts Cove in the County of Halifax, Nova Scotia, bounded and more particularly described as follows:

BEGINNING at an iron pin marking the South West corner of a lot of land shown as lot No. 3 on a plan showing a subdivision of a portion of lands of Thomas Moore at Tufts Cove in the County of Halifax, said plan dated the 12th day of March, 1956 and showing lots Nos. 1, 2 and 3 thereon approved by the Halifax County Planning Board on the 19th day of March, 1956;

THENCE South six degrees and fifty seven minutes East ($S6^{\circ} - 57' E$) a distance of one hundred and seventy-seven ($177'_{+}$) feet more or less to the Northern boundary of a lane now or formerly known as Fergusons' Lane, said Fergusons lane shown as being thirty ($30'$) feet in width on said plan;

THENCE North Easterly along the said Northern boundary of said Fergusons' Lane a distance of thirty-one ($31'_{+}$) feet more or less;

THENCE North six degrees and fifty-seven minutes West ($N6^{\circ} - 57' W$) parallel to and thirty ($30'$) feet distant at right angles from the first described line a distance of one hundred and seventy-seven ($177'_{+}$) feet more or less to the Southern boundary of said lot No. 3 on said plan;

THENCE South sixty-seven degrees West ($S67^{\circ} W$) along said Southern boundary of lot No. 3 a distance of thirty-one ($31'_{+}$) feet more or less to the iron pin marking the point beginning;

ALL of said above described lot, piece or parcel of land being a portion of a lot of land shown as a private road on said plan of Subdivision of a portion of lands of Thomas Moore and shown outlined in red on a plan made by the Municipality of the County of Halifax dated the 8th of November, 1960 and signed by F. R. Fraser, Municipal Engineer.

Motion carried.

Councillors McGrath and Spears moved:-

Easement required from Max C. Murphy Lot A-2

ALL that certain lot, piece or parcel of land situate, lying and being in Westphal in the County of Halifax, Province of Nova Scotia bounded and more particularly described as follows:

BEGINNING on the eastern boundary of a lot of land shown as A-4 at the south west corner of a lot of land shown as lot A-3 on a plan of Hubley Sub-division certified by John A. McElmon, C.E., P.L.S., dated the 12th of September, 1958, said plan showing lots A-2 and A-3 as being approved by the Halifax County Planning Board on the 15th of September, 1958;

THENCE North sixty-three degrees and fifteen minutes East ($N63^{\circ} - 15'E$) along the southern boundary of said lot A-3 a distance of twelve and six-tenths ($12.6'$) Feet;

THENCE South eighteen degrees and twenty-seven minutes East ($S18^{\circ} - 27'E$) a distance of sixty-four and six-tenths ($64.6'$) feet to the northern boundary of Penhorn Realities Sub-division ;

THENCE South sixty-three degrees and fifteen minutes West ($S63^{\circ} - 15'W$) along said northern boundary of said Penhorn Realities Sub-division a distance of two and three-tenths ($2.3'$) feet to the south-east corner of said lot A-4 on said plan;

THENCE North twenty-seven degrees and forty minutes West ($N27^{\circ} - 40'W$) along said eastern boundary of said lot A-4 on said plan a distance of sixty-four ($64'$) feet to the place of beginning;

ALL of said above described lot, piece or parcel of land being a portion of a lot of land shown as lot A-2 on said plan of Hubley Sub-division, said portion of said lot A-2 shown outlined in red on a plan made by Allan Downie, Provincial Land Surveyor for the Municipality of the County of Halifax and dated the 6th of September, 1960, all bearings referred to above being magnetic in the year 1960.

Motion carried.

Easement required from Rhodes D. Bent A-3

ALL that certain lot, piece or parcel of land situate, lying and being in Westphal, in the County of Halifax, Province of Nova Scotia, bounded and more particularly described as follows:

BEGINNING on the Eastern boundary of a lot of land shown as lot A-4 at the North West corner of a lot of land shown as lot A-2 on a plan of Hubley Subdivision certified by John A. McElmon, C.E., P.L.S., dated the 12th of September, 1958, said plan showing lots A-2 and A-3 as being approved by the Halifax County Planning Board on the 15th of September, 1958;

THENCE North sixty-three degrees and fifteen minutes East ($N63^{\circ} - 15'E$) along the Northern boundary of said lot A-2 on said plan a distance of twelve and six tenths (12.6) feet;

THENCE North eighteen degrees and twenty-seven minutes West ($N18^{\circ} - 27'W$) a distance of eighty and eight tenths (80.8) feet to the southern boundary of Athorpe Drive now or formerly so called;

THENCE South sixty-three degrees and fifteen minutes West ($S63^{\circ} - 15'W$) along the said Southern boundary of said Athorpe Drive a distance of twenty-five and six tenths (25.6) feet to the North East corner of said lot A-4;

THENCE South twenty-seven degrees and forty minutes East ($S27^{\circ} - 40'E$) along said Eastern boundary of said lot A-4 a distance of eighty (80) feet to the place of beginning.

ALL of said above described lot, piece or parcel of land being a portion of a lot of land shown as lot A-3 on said plan of Hubley Subdivision, said portion of said lot A-3 shown outlined in red on a plan made by Allan Downie, Provincial Land Surveyor for the Municipality of the County of Halifax and dated the 6th of October, 1960, all bearings referred to above being magnetic in the year, 1960.

Motion carried.

Easement required from Milton A. Hubley A-4

ALL that certain lot, piece or parcel of land situate, lying and being in Westphal in the County of Halifax, Province of Nova Scotia bounded and more particularly described as follows:

BEGINNING on the southern boundary of Athorpe Drive now or formerly so called at the north west corner of a lot of land shown as lot A-3 on a plan of Hubley Subdivision certified by John A. McElmon, C.E., P.L.S., dated the 12th September, 1958 showing lots A-4 to A-11 as being approved by the Halifax County Planning Board on the 25th May, 1959;

THENCE south twenty-seven degrees and forty minutes east (S27° - 40'E) along the western boundaries of lots A-3 and A-2 on said plan a distance of one hundred and forty-four (144') feet to the northern boundary of the Penhorn Realities Sub-division;

THENCE south sixty-three degrees and fifteen minutes west (S63° - 15'W) along the northern boundary of said Penhorn Realities Sub-division a distance of twenty-three and three tenths (23.3) feet;

THENCE North ten degrees and thirty minutes West ($N10^{\circ} - 30'W$) at right angles to the East described line a distance of sixty-six (66') feet;

THENCE North seventy-nine degrees and thirty minutes East ($N79^{\circ} - 30'E$) parallel to and sixty-six (66') feet distant from the said Northern boundary of said lands of Armdale School Section No. 33 a distance of one thousand and two (1,002') feet;

THENCE North ten degrees and thirty minutes West ($N10^{\circ} - 30'W$) at right angles to the East described line a distance of four hundred and sixty-six (466') feet to the said Southern boundary of said Piers Avenue;

THENCE North Seventy-nine degrees and thirty minutes East ($N79^{\circ} - 30'E$) along the said Southern boundary of said Piers Avenue a distance of sixty-six (66') feet to the place of beginning;

ALL of the said above described lot, piece or parcel of land shown outlined in red in a plan made by Allan Downie, Provincial Land Surveyor for the Municipality of the County of Halifax and dated the 8th, November, 1960.

Motion carried.

Councillor Moser said he could not understand why the building permits required a person to have a surveyor's certificate, he felt this was the job of the building inspectors and that it was costing the people a lot of money and undue hardship, in some cases the surveyor's certificate cost the prospective builder forty dollars and this came hard to young people trying to build themselves a home and wishing to be law abiding. He felt this was undue discrimination. He also asked why a permit was issued by the building inspectors after the Planning Board approved the lot.

Councillor White suggested that this question be referred to the Chairman of the Building Board.

Councillor Settle cited a case of William Myers in Eastern Passage, who wished to convey to a Mr. Naugle, his son-in-law, who is conducting a fishing business at the wharf, this lot is adjacent to the wharf lot and is a beautiful lot of land. It seems only sensible that a man have his home near his work. There is a 30 foot right-of-way that could serve that lot alone. The building inspector would not issue a permit because the lot did not front on a Department of Highways accepted road. He said that there is some friction developing, but the Planning Board stands firm in its policy. It feels that if a man wants to convey a lot of his land to someone in his family, that it is his privilege to do so, but before a building permit could be issued, a permit was required from the Dept. of Highways. The Department of Highways would not accept any road less than 500 feet in length. As this right-of-way was to serve one lot only, it was impossible to ask for a 500 foot roadway. He stated that this lot met all the requirements of the Planning Board.

Councillor White said that he could not understand why he could not obtain a building permit without the cost of \$100 for

a special meeting of the Building Board.

Councillor Moser contended that this was a surveyor's racket to require a surveyor's certificate for every application for a building permit.

Solicitor Cox said that the approval of a lot by subdividing has nothing to do with the granting of building permit and further that a building inspector was fully within his rights to require a surveyor's certificate in cases where he deemed it necessary.

Mr. Hattie read the Report of the Finance and Executive Committee.

Councillors Snair and Flawn moved:-

"THAT the Report of the Finance and Executive Committee, be adopted."

Councillor Redmond said that this committee handling the application for the relief of taxes was made up of a small number of Councillors and it was possible that errors were made.

Councillor Baker did not go along with the reports of the Welfare Workers, he contended that as in similar reports in the past, some of the information contained therein was entirely too personal and was not in keeping with the dignity of this Council. He said that the reference to an imbecile for instance, in one of these reports was a disgraceful exhibition and was entirely unnecessary, all the Council requires is the name, address and financial position of the applicant, neither the family tree nor the family skeletons are necessary for consideration, but he did feel that more time should be given for Councillors to examine the pertinent evidence.

Councillors Snair and Flawn's motion was put to a standing vote and it was carried. 16 FOR and 3 AGAINST.

Councillors Stubbs and McGrath moved:-

"THAT Councillor Baker be appointed as a member of the Regional Library Board."

Councillor Baker felt that he should decline this nomination, because although he appreciated the value of such libraries, in all honesty if he had his way as Chairman of that Board, there would be many things deleted from the program of that Committee. He felt that he would do neither the Committee nor the Council any benefit by serving, because of his attitude on certain items, he said he would be merely a watchdog and for these reasons felt that he should decline the nomination.

Councillor McGrath pointed out that Councillor Baker had been the original appointee on the Library Committee and had relinquished his seat to Councillor Evans, since the position would be vacant in a couple of months anyway, he requested that Councillor Baker serve.

With this understanding, Councillor Baker accepted.

Councillors Stubbs and McGrath's motion was put to the vote and the motion carried.

Councillors Williams and Snair moved:-

"THAT the approval of the minutes of the Day's Session, be deferred until the next Session of Council." Motion carried.

Councillor Redmond felt that the Municipality was causing undue hardship on some of the uneducated rural people in requiring them to have three copies of the description of their property made during a transfer of the sale of the property.

Mr. Hattie explained that his office typed up the required three copies of these descriptions at the time the transfer application was being made, if the people wished.

Councillor Baker asked whether there was any County legislation regarding the sale of inspected meat. Mr. Hattie replied in the negative.

Councillor Baker announced his intention to press for such legislation forbidding the sale of other than inspected meats within the Municipality. He said that the new N. S. Co-Operative

Abattoir was a step in the right direction, but did not preclude the operations of the fly-by-night individuals, who offered from door to door and even supplied some retail outlets with meat unfit for human consumption.

Councillor Baker asked about immunization and wished to know whether any definite reply had been received from the Department of Health.

Mr. Hattie reported that he had written again, but had received no reply.

Councillor Baker felt that the amount of welfare paid was the minimum allowed and considering the very high cost of living and also the amount of welfare assistance in other Nova Scotia centres, he felt that the matter should be studied with the view to establishing a higher and more equitable rate of payment in really needy cases.

Mr. Rooney said that the food scale was worked out from an approved scale and the figures of \$5.00 per week for adults and \$3.00 for children was the bare minimum allowed to pay. He stated further that the Municipality could pay a higher amount of money and the Provincial Government would reimburse to the extent of two-thirds of the amount paid. He said that in cases of greater necessity, for instance a person coming out of hospital with a strict diabetic diet requiring special foods, his department took it upon themselves to raise the amount to cover these essentials.

Councillor Baker asked that the Welfare Committee study this and bring in a report regarding a proposed raise.

Solicitor Cox explained that the Municipality has the power to regulate the killing and the sale of cattle and sheep.

Councillor Moser asked why the County paid a bounty on raccoons, when they were protected animals, protected by a closed

season by the Provincial Department of Lands and Forests.

Solicitor Cox replied that raccoons were the most unprotected animal of all because it was even possible to obtain a permit to hunt them at night in certain months of the year.

Councillors Curren and Baker moved:-

"THAT Council adjourn." Motion carried.

The November Session of the Municipal Council closed with the singing of "God Save The Queen".

A BY-LAW TO AMEND THE ZONING BY-LAW

1. Section 59 of the Zoning By-Law is amended by striking out the words "Chapter 24 of the Revised By-Laws of the Municipality of the County of Halifax, 1957, The Mobile Home Parks By-Law, and amendments thereto" and substituting therefor the words "the Mobile Home By-Law of the Municipality of the County of Halifax, and amendments thereto".

2. Section 18 of the Zoning By-Law is amended by striking out the words "or a G Zone" in the second line thereof and by striking out the words "and G Zone respectively" in the third and fourth lines thereof.

Motion carried.

November Council Session - 1960

REPORT OF THE FINANCE AND EXECUTIVE COMMITTEE

To His Honor the Warden and Members of the Municipal Council.
Councillors:-

At the October Council Session this Committee reported that it proposed to study the financial implications that will arise as a result of certain areas in the Municipality to be annexed to the Town of Dartmouth and also that no new work should be started in the area proposed to be amalgamated until such time as the matter had been discussed with Town authorities and any new projects agreed upon between both parties. Considerable work has been done on this matter and your Committee is pursuing this study further in an effort to complete our thinking on this matter by the latter part of November.

In the meantime it can be said that there has been one meeting with the Mayor of the Town of Dartmouth and certain of their Town officials with respect to any new works that are to be carried on in the area to be amalgamated with the Town and it has been agreed, in principle, that the Town would like to see these projects started as quickly as possible, so that there will be no delay arising as a result of amalgamation.

Projects, such as the large Westphal sewer installation, and a new 12-room school, however, will go beyond the end of the year and we are placed in a position of not being able to pay for works being carried out in another Municipality on the first day of January. It has, therefore, been agreed, in calling for tenders for such works that the advertisement calling for tenders should state that the Municipality would

Report of the Finance and Executive Committee
Continued

be considered the owner until December 31, 1960, and that on and after the 1st day of January, 1961, the Town would become the owner and would be responsible for payments. The Solicitors have drawn up an amended contract form which would make the Town of Dartmouth a party of the third part and the document will also state responsibility of payments of Progress Estimates up to the end of the year and following the 1st of January, 1961.

Generally speaking, this Committee has taken the view that the important thing is that services to the people in the area should not suffer in any way because of a change in jurisdiction and, therefore, in general terms it has been agreed that conveyance of school children will be carried out by the Municipal School Board until the end of the present school year.

There is, however, a mass of detail that has to be gone through - item by item - which your Committee is now working on and which we propose to place before the Council as quickly as possible in order that Council will be fully informed of this Committee's analysis of assets and liabilities that will be effected and to what extent by virtue of amalgamation.

REQUESTS FOR RELIEF FROM PAYMENT OF THE CURRENT YEAR'S TAXES -

Your Committee has again reviewed certain applications for relief from payment of the current year's taxes and have attached to this report copies of reports from our Welfare Workers in connection with each case. As a result of our investigations of these applications, we wish to recommend as follows:-

Report of the Finance and Executive Committee
Continued

MRS. CATHERINE M. DeBAIE

We recommend that the application for exemption NOT be granted.

GEORGE BOUTILIER

We recommend that the application for exemption NOT be granted.

MRS. IRENE ARSENAULT

We recommend that the application for exemption of the current year's taxes BE granted.

MRS. MARY E. FLACK

We recommend that the application for exemption of the current year's taxes BE granted.

MRS. CHARLOTTE MAY DENTON

We recommend that the application for exemption NOT be granted.

MRS. JOHN J. MASON

We recommend that the application for exemption NOT be granted.

MRS. ROSIE RICHARDS

We recommend that the application for exemption NOT be granted.

MR. REGIS J. WOLFE

We recommend that the application for exemption NOT be granted.

The Municipal School Board has advised us that the Thornhill Park Homeowners Association have requested permission to lay an asphalt sidewalk from the street to the bottom of the steps leading from Thornhill Park Subdivision to the Elizabeth Sutherland School in Spryfield.

Report of the Finance and Executive
Committee Continued

As this is Municipal property, the School Board has asked Council for its consent and your Committee feels that where the people in the Subdivision are obviously in favour of an asphalt sidewalk being constructed in this location and where it will be no cost to the Municipality, your Committee recommends that permission be granted to lay such a sidewalk.

Respectfully submitted,
(Signed by the Committee)

November Council Session - 1960

September 21, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: DeBAIE, Mrs. Catherine M. Tax Amount - \$14.50
DeBay's Cove,
Halifax County, N. S.

Case referred by Mr. H. G. Bensted.

Worker visited the home of Mrs. Catherine DeBaie at DeBay Cove and talked with Mrs. DeBaie. Mrs. DeBaie is the widow of Mr. Ernest DeBaie who passed away April 19, 1960.

Mrs. DeBaie's home consists of six rooms. Worker spoke with this lady in her kitchen which is clean, tidy and well furnished. The house appears to be in a good state of repair.

Mrs. DeBaie's family are all married, names as follows:

- | | | | |
|------------------------|-----------------------|---|-----------------------|
| Lawrence DeBaie | DeBay's Cove | - | 12 children |
| Hughie DeBaie | Musquodoboit Harbour- | | Employed at the |
| | | | N. S. Light and Power |
| Howard DeBaie | Eastern Passage | - | Employed at |
| | | | Shearwater |
| Austin DeBaie | Tufts Cove | - | Unemployed |
| Cedric DeBaie | Tufts Cove | - | Employed at |
| | | | Bedford Magazine |
| Mrs. Edward Richardson | Albro Lake | | |
| Mrs. Victor Pridemoor | Quebec | | |
| Mrs. Aubrey Monk | East Ship Harbour | | |
| Mrs. Kenneth Cook | Prince Edward Island | | |

Mrs. DeBaie's sons and daughters do not appear to be in a position to help her, although worker suggested there might be one or two of them that have steady employment that could assist her if they were asked. Worker also was told that there is a grand-daughter who lives at this home. She is married and at present her husband is unemployed. This family is building a home at Westphal. They have been working at their new home for two years. Worker suggested to this girl that in all fairness to her grandmother they should pay something for the use of her home.

Case DeBaie, Mrs. Catherine M. Continued

Mrs. DeBaie told worker at the present time she receives the Old Age Pension of \$55.00. She has a financial problem, her late husband's funeral expenses which are \$200.00. Mrs. DeBaie told worker it is difficult for her to pay these funeral expenses but if given enough time she hopes to take care of them.

(Sgd.) C. G. SMITH,
Welfare Officer.

November Council Session - 1960

October 19, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: BOUTILIER, George
Tantallon, c/o Johnnie Pitts
Halifax County, N. S.

Worker made a home investigation in this case.

Mr. George Boutilier lives with Mrs. Pearl Selig and Johnnie Pitts at Tantallon. His age is 56.

Both Mrs. Selig and Mr. Pitts are aged people in receipt of Old Age Pension of \$55.00 monthly. The home is owned by Mrs. Selig and George Boutilier lives with and looks after these old people for which he does not receive any wages but his board and a place to stay.

The man seems strong, able bodied and was at work cutting firewood when worker arrived. Worker could not find any indication to prove that the man is an imbecile as stated on his affidavit. Definition of an imbecile is one regarded as the village idiot, usually subject to the jeers and taunts of the children and others for his actions in the locality.

This man, while he might have a below average I.Q. or be somewhat mentally retarded, did not show same in interview. Seemed quite straight-forward to talk with. Has little education. This could explain his being somewhat backward. Stated to worker that he has not worked or been gainfully employed since 1956 but further stated he was subject to rheumatism or rheumatoid arthritis; had received medical treatment for same and that on account of this could not work for any long periods of time without becoming crippled.

Worker advised man to make application to determine if he might qualify for Pension 7-C.

Case of Boutilier, George Continued

It is worker's recommendation that these taxes should not be excused but rather in lieu of any wages, Mrs. Selig and Mr. Johnnie Pitts should be requested to pay them if necessary in small monthly instalments.

(Sgd.) L. C. TRIVETT,
Welfare Officer.

November Council Session - 1960

October 14, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: ARSENAULT, Mrs. Irene	Assessment	\$ 3,300.00
397 Herring Cove Road,	Taxes - 1960	\$ 87.57
Spryfield,	Taxes in arrears	
Halifax County, N. S.	1956-1959	\$202.18

Mrs. Arsenault owns a four-room cottage consisting of living room, kitchen and two bedrooms. Also living in the home with her is Mrs. Drake (daughter) and her five grandchildren. Mr. Drake (fisherman) left the house three weeks ago and has not been heard of since. This is not an uncommon occurrence as last year Mr. Drake disappeared for four or five months, leaving Mrs. Arsenault to resume the financial burden of his family.

The original plan when purchasing the home seven years ago was that Mrs. Arsenault would lend Mr. Drake sufficient funds for the initial down payment (approximately \$700.00) and he in turn would pay the mortgage of \$45.00 per month. Mr. Drake, however, did not live up to his commitments and about two years ago Mrs. Arsenault gained possession of the deed.

Mrs. Arsenault's only income at present is \$25.00 a week she receives from housecleaning jobs in the city.

Mrs. Drake informed worker Mrs. Arsenault is at present behind with the mortgage payments, partly due to the heavy financial responsibility forced upon her. It also appeared that Mr. Drake contributed very little to the household, \$10.00 now and then for groceries only. Consequently, the family have been living on Mrs. Arsenault's earnings plus \$40.00 family allowance.

October 19, 1960.

Mrs. Arsenault's house was destroyed by fire today. The place is uninhabitable. Arrangements are being made by neighbours to place the family in another building in the area. The Red Cross Disaster Service was called in to assist the family.

(Sgd.) PATRICIA FITZ-GERALD,
Welfare Officer.

November Council Session - 1960

November 1, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: FLACK, Mrs. Mary E.	1960 Assessment - \$1,525.00
Bear Cove,	1960 Taxes - \$ 34.62
Halifax County, N. S.	Exempt Year 1961

Following a request for relief from taxes by the above lady, worker made a home investigation.

Mrs. Mary Evelyn Flack's age is 64. She lives alone in a small but comfortable five-room home at Bear Cove. Several rooms of same home only partially finished.

She and her late husband were both employees for many years of the Maritime Telegraph and Telephone Company, marrying late in life, only some nine to ten years ago and bought this property from their joint savings. Her husband died on October 4, 1959, and she claims through ignorance of procedure on her part she did not on the first of this present year report his death and claim widow's exemption of \$2,500.00 taxation, which same would clear her of any taxes.

She has only a small income, namely a pension of \$50.00 monthly from the Maritime Telegraph and Telephone Company, which is her only source of income and is unable to work herself due to a disability, but not of sufficient nature to qualify for a disability pension.

There are no children. She has one brother, single, living alone across the road who does stevedoring in the winter months, some fishing for himself in the summer but his income is small and while he has on occasions given her some assistance, is unable to assist her to any extent.

She also has a sister married, also living nearby, but with a family of her own and unable to give her any assistance. These are the only relatives.

November Council Session - 1960

September 20, 1950.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: DENTON, Charlotte May	1960 Assessment - \$5,500.00
Musquodoboit Harbour,	1960 Taxes - \$ 119.00
Halifax County, N. S.	Arrears - Mil

Referred by Mr. H. G. Bensted.

Worker visited Mrs. Charlotte May Denton at her home in Musquodoboit Harbour. She is the widow of Mr. Hugh P. Denton who passed away February 12, 1960.

Mrs. Denton lives alone. Her home consists of eight rooms, very orderly and clean and from all appearances is in a good state of repair.

Mrs. Denton's deceased husband was a Raleigh Agent in the community for some years. Mrs. Denton told worker that she has no income. She is not old enough to draw Old Age Assistance. Mrs. Denton did tell worker that her husband left her \$1,000.00 insurance from which she would have to pay the funeral expenses and live until she would become eligible for the Old Age Assistance.

Mrs. Charlotte May Denton's family are:-

Daughters -	Mrs. Cameron Gates	21 Clear View Crescent, Dartmouth
	Mrs. Edgar Trask	Little River, Digby County, N.S.
Sisters -	Mrs. Chesterton Davies	Bridgetown, N. S.
	Mrs. Austin Denton	Little River, Digby County, N.S.
	Mrs. Rupert Trask	Little River, Digby County, N.S.

October 26, 1960 -

Worker visited Mrs. May C. Denton again today and spoke with her concerning her daughters and their interests in her property. Mrs. Denton told worker that she would speak to them about the matter of taxes.

(Sgd.) C. G. SMITH,
Welfare Officer.

November Council Session - 1960

November 3, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: MASON, Mrs. John J.
64 Tacoma Drive,
Westphal,
Halifax County, N. S.

Referred by Mr. H. G. Bensted.

Worker visited the home of Mrs. John J. Mason in Westphal. The house consists of six rooms and bath. The building is in quite good repair inside and out. Mrs. Mason has the home nicely, but not expensively, furnished. Everything points to Mrs. Mason's being a capable housekeeper.

The family consists of John J. Mason, husband and father, who at present is a patient in Point Edward Hospital. He is 56 years of age. He has been sick over five years.

Daughter, Rhoda, 21, is a school teacher at Admiral Westphal School. John Ross Mason, son, 19, employed two days a week at 40 Fathom, formerly called General Seafoods. Paul, son, 14, a high school pupil.

Mr. John J. Mason has been sick over five years with tuberculosis. Mrs. Mason told worker he has been in Kentville Sanatorium up until the spring of 1960. He was home two months then went to Roseway Hospital. He next came to Victoria General Hospital and had an operation on the prostate gland. He was at the V. G. three weeks and was then transferred to Point Edward Hospital. Mr. Mason by trade was a carpenter. He and his wife built their own home.

Case Mason, Mrs. John J. Continued

Mrs. Mason told worker her income and expenses. She has no mortgage. They have built a four-room cottage on their property that they rent for \$40.00 a month.

Her income per month is as follows:-

Rent from bungalow	-	\$ 40.00
Social Assistance	-	70.00
Family Allowance	-	8.00
Daughter Rhoda pays \$10.00 per week	-	<u>40.00</u>
		\$ 158.00

Expenses

Telephone	-	\$ 7.00 per month
Light	-	5.00 per month
Carpenters' Dues	-	3.00 per month
Fuel	-	over 200.00 per year
Church	-	52.00 per year

No estimate was made for food or clothing. She pays her husband's dues in the Carpenters' Union because while this is continued the Union will pay the funeral expenses should anything happen to Mr. J. Mason.

(Sgd.) C. G. SMITH,
Welfare Officer.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: RICHARDS, Mrs. Rosie	1960 Taxes \$ 32.90 & \$.16
Montague Mines, District 14D	Assessment - \$950.00 interest
Halifax County, N. S.	Arrears - Nil

Worker visited Mrs. Richard's home in July, 1960. The purpose of the visit at that time was to evaluate Mrs. Richard's financial condition and to determine if her son (age 17) would be eligible for Provincial Social Assistance in the coming year. Worker found that the boy did not grade and consequently would not be eligible for Provincial Assistance. In 1959 an arrangement was made whereby the County of Halifax awarded Mrs. Richards assistance of \$50.00 per month.

Mrs. Richards and her son live in a one-storey dwelling, consisting of four or five rooms. According to Mrs. Richards, she was a housekeeper for many years and on the death of the owner of this house she became the owner. The house is in fair condition and well furnished inside. Mrs. Richard's only known income is the \$50.00-month stipend given under the Municipal Assistance program. This is a case where the Municipality of the County of Halifax is providing complete maintenance. The only chance of change in this woman's financial status would be if her boy left school, secured employment and relieved the County of the responsibility. Otherwise, it will be necessary for Mrs. Richards to ask for relief from payment of taxes each year.

(Sgd.) DANIEL J. ROONEY,
Director of Welfare.

N.B. Widow's Exemption
granted for 1960.

November Council Session - 1960

October 18, 1960.

REQUEST FOR RELIEF FROM PAYMENT OF TAXES

CASE: WOLFE, Regis J.	1960 Assessment - \$5,150.00
Grand Desert,	1960 Taxes - \$114.85
Halifax County, N. S.	

Referred by Mr. H. G. Bensted.

Worker visited the home of Mr. Regis J. Wolfe of Grand Desert. Mr. Wolfe has difficulty with his hearing and appears to be quite blind. He had an accident in June of 1958. A friend's car was stuck and together with some other men he was pushing it and some earth flew from the wheel and struck him in the eye. He was in the Victoria General Hospital about four weeks. He has not worked since the accident. He told the worker his sight is not sufficient. Mr. Wolfe is 54 years of age.

His wife Evelyn is 47
Jerome is 20
Raymond is 15

Worker was told the oldest son Jerome is unemployed and has been all summer, but when he was employed he helped carry the household. The younger son goes to school.

Mr. and Mrs. Regis J. Wolfe have \$1,500.00 in Canada Savings Bonds that they are trying to hold to provide for future needs. Mr. Regis Wolfe has applied for Disability Pension, October 28, 1960.

Their home consists of six rooms. It is apparently in very good condition. Home is nicely furnished and well kept. They appear to be an industrious family. This is the first time that they requested assistance of any description.

(Sgd.) C. G. SMITH,

Welfare Officer.

REPORT OF THE MUNICIPAL SCHOOL BOARD

To His Honour, the Warden and Members of the Municipal Council of
the Municipality of the County of Halifax.

The Municipal School Board wishes to make the following report
at the November Meeting of the County Council:

TEACHER SITUATION, SEPTEMBER, 1960

At the opening date of schools in September of this year, Halifax County found itself in a slightly better position with respect to teachers than in 1959. There has been a definite increase in the number of teachers holding Professional Certificates, a decrease in the number of persons teaching by Permit and, to date, we do not have any schools in the County on Correspondence Study Courses. The need for qualified teachers at the Junior and Senior High School levels is still acute and as an increasing percentage of our pupils continue in these grades we must expect to require an increasing number of these highly qualified teachers:

In September 1959 we had a total of 844 teachers in Halifax County. In September 1960 we had a total of 956 teachers. Last year we had 4 Correspondence Study Supervisors. This year, to date, we have none.

A comparison of teacher classification with that of last year is as follows:

	<u>1959-60</u>	<u>1960-61</u>
Professional Certificate Class I	21	35
Professional Certificate Class II	123	149
Professional Certificate Class III	29	45
Teachers' License Class I	42	56
Teachers' License Class II	329	377
Teachers' License Class III	195	199
Teachers' License Class IV	68	58
Teachers' Permit Class I	10	11
Teachers' Permit Class II	27	26
Totals	<u>844</u>	<u>956</u>

ENROLLMENTS

As was the case for the past number of years, enrollments have increased considerably over the past year. At the opening of school in September we had 1,649 more pupils in our schools than we had in September 1959.

A comparison of enrollments by grades is as follows:

<u>Grades</u>	<u>1959-60</u>	<u>1960-61</u>
Auxiliary Class	49	102
Primary	2979	3234
Grade I	2717	2835
Grade II	2488	2881
Grade III	2680	2633
Grade IV	2421	2603
Grade V	2412	2301
Grade VI	2365	2329
Grade VII	2046	2013
Grade VIII	1480	1794
Grade IX	1183	1523
Grade X	772	914
Grade XI	489	560
Grade XII	<u>154</u>	<u>168</u>
	24,235	25,884

BURSARIES

In February 1960, the Municipal Council accepted the recommendation of the Municipal School Board that twelve Bursaries of One Hundred Dollars (\$100.00) each be awarded to students writing Provincial Examinations. These Bursaries were to be awarded as follows:

GRADE XII

Two Bursaries for those students who are taking higher education.
Six Bursaries for those students taking teacher training at the Nova Scotia Provincial Normal College.

GRADE XI

Two Bursaries for those students who are taking higher education.
Two Bursaries for those students who are taking teacher training at the Nova Scotia Provincial Normal College.

This year the following students were successful in obtaining Bursaries:

Grade XII Students Taking Higher Education

<u>Name of Student</u>	<u>Address</u>	<u>School Attended</u>
Edgar Blinn	Head St. Margaret's Bay	Hfx. West Mun. High
Michael Casselman	36 Colindale St., Armdale.	Hfx. West Mun. High

Grade XII Students Going to Normal College

Jeanette White	Eastern Passage	Port Wallis, Westphal
Janice McCurdy	Middle Musquodoboit	Musquodoboit Rural High
June Dickie	20 Melody Dr., Rockingham	Hfx. West Mun. High
Marion Parker	Owl's Head Harbour	Rbt. Jamison Con. High
Shirley Fisk	Middle Musquodoboit	Musquodoboit Rural High
Shirley Josey	Spry Harbour	Central Con. High

Grade XI Students Taking High Education

Barbara Curry	Bedford	Hfx. West Mun. High
Reid Coolen	Hubbards	Shatford Mem. School

Grade XI Students Going To Normal College

Lorraine Roma	West Chezzetcook	Rbt. Jamison Con. High
Mary Fraser	Timberlea	Hfx. West Mun. High

The Municipal School Board wishes to congratulate these students and to wish them every success in their chosen professions.

ADDITIONS TO CAPITAL PROGRAM

JOLLIMORE

As a result of the difficulty experienced in obtaining land for the proposed school at Jollimore we were four classrooms short in September of this year. The two Primary classrooms were put on staggered time and classrooms were established in the teachers' room and the library. However, this provided for only three classrooms. In order to provide space for the fourth class, a room was built in the basement of the present school. It is proposed that when

the new school is built, this classroom can be used as a music and special subjects room and at the same time be held in case of a future sudden rise in school population. It is requested that Council re-imburse the School Board for the cost of this classroom.

SHIP HARBOUR
PENINSULA

For some months now the Municipal School Board has been considering consolidation in the Ship Harbour Peninsula. After much discussion with the people in the area and study of present population trends, it was decided to recommend two schools for this area. One six room school in the Oyster Pond - Lake Charlotte area. This school would teach grades Primary to Grade VI inclusive and would include East Jeddore, Oyster Pond and Lake Charlotte. This school should have a suitable teachers' room, library, all purpose room and principal's office and should be so constructed that four more rooms could be added in the future, if necessary.

The second school recommended for this area is a four room school to serve Clam Bay, Clam Harbour Little Harbour, DeBaie Cove, Owl's Head Harbour, Lower Ship Harbour and North Ship Harbour. This school to be constructed in the Clam Bay - Clam Harbour area. This school would teach Primary to Grade VI inclusive and should have a suitable teachers' room, all purpose room and a principal's office. This school should be so constructed that

November Council Session - 1960

REPORT OF THE PUBLIC WORKS COMMITTEE

To His Honor the Warden and Members of the County Council.

Councillors:-

WESTPHAL

Contract documents have been ready for some time for the proposed sewer installations on Virginia Avenue, Lawson Avenue, a section of Bowser Avenue, and a section of Kelly Drive, and we had hoped to call for tenders before now on these installations.

Tenders will be called for this work and also other jobs as soon as we receive word from the Town of Dartmouth that the Town has approved the wording of new contract documents, incorporating the Town as a party of the Third Part, in connection with this work.

ROCKINGHAM-SPRYFIELD-BEDFORD

Installation of services in these areas are still under study and review. The main problem in connection with the installation of services in these areas is a financial problem - how to provide the services to the communities concerned without increasing the tax rate too much. These things cost money but your Committee is striving to keep such costs to reasonable limits. A new approach to this all important problem is being worked on now that your Committee hopes will bear some fruit in the not too distant future.

DOWNNS AVENUE

Council is well aware of the fact that a new school is being constructed on Downs Avenue - immediately south of Springvale Avenue. Your Committee has been working with two subdividers in the area in order to reduce the cost to the Municipality.

Report of the Public Works Committee Continued

These negotiations are progressing favourably but in order to insure adequate service to both the new school and the Armdale Junior High School on the same property, it is necessary to start construction as soon as possible on the proposed extensions. It is anticipated that this work can be carried on under the Winter Works Programme and that if started reasonably soon, both water and sewer will be available for the new school presently under construction.

There is one problem, however, and that is the Public Service Commission will not proceed with this work unless there is assurance on the part of the County to guarantee the required revenue to the Public Service Commission. The Commission estimates that where the two schools will be the only consumers to start with, that the deficiency in revenue will be approximately \$500.00 per year. As there will be fourteen lots abutting the proposed extension, and as these lots are located where they will undoubtedly develop quickly, your Committee recommends that Council guarantee the revenue on this water extension to an amount not exceeding \$500.00 per year, until such time as there are sufficient consumers on this extension to make the extension self-supporting.

Your Committee also recommends and proposed to introduce, separate from this report, a temporary borrowing resolution to an amount of \$20,000.00 to cover the installation costs of sewer to serve the new school and the Armdale Junior High School on Downs Avenue.

INCINERATOR

The costs of operation of the Incinerator have been under close scrutiny by this Committee. As is often the case in new ventures, things have cropped up that could not have been

Report of the Public Works Committee Continued

anticipated when the Municipality first entered upon this project. The main problem is, and has been, the fact that garbage is not separated. As soon as this can be achieved, the whole operation will be on a more economical basis.

The original burning fees were set on a basis of estimates prior to the construction of the incinerator and as experience has shown that a burning fee of \$4.75 per ton is necessary to meet the operational and capital charges, your Committee recommends that the burning fee be increased to \$4.75 per ton; said charges to be effective from the 1st of January, 1960, for all Districts that dispose of their refuse at the Municipal Incinerator.

Negotiations are presently being carried out with the Federal Government with respect to the possibility of acquiring a suitable site for a dump on the D.N.D. property and it is hoped that if these negotiations are successful, and garbage can be separated, that a more economical operation can be carried out and, if so, the burning fee may be reduced at that time.

Respectfully submitted,
(Signed by the Committee)
