Communication

rel to Pump

in Granville Street

The Petition of the undersigned inhabitants of  
Ward Number Three. Humbly Sheweth, That the pump situate  
in Granville Street opposite Somerset House has been for a consider-  
able period of time out of repair, and the same does not appear  
to occasion inconvenience to the inhabitants in the immediate  
vicinity thereof, and your petitioners deem the putting the same  
in repair an unnecessary expense, while its entire removal  
would greatly improve the aspect of the street, and the repair  
of the well itself, would add greatly to the comfort and safety  
of pedestrians. Your petitioners therefore pray that the said  
pump be ordered to be removed and such repairs made  
at the well as would render it safe and convenient.

And your Petitioners will ever pray to

James Thompson

The City Council next take up the report of the Committee on Subject of Streets which on Motion is read

The Committee appointed by the City Council on the 15 instant to make all necessary enquiries respecting the best mode of expending the Road Money whether under the Superintendance of one General Engineer or otherwise, or any other business connected with the general improvement with Streets, and report at next meeting of Council having as far as the limited time afforded them attended to that duty beg to report

Report of  
Committee  
Subject of Streets

No 1. That the cleansing and sweeping the Streets of the City first occupied their attention and in order to prevent the accumulation of dirt and filth so often observable on the side paths and thoroughfares, the bodies of dead animals frequently exposed to view to afford the inhabitants an opportunity of keeping their yards more cleanly and as far as possible prevent the annoyance of flies. The Committee have unanimously agreed to recommend to the City Council that two Scavengers with a horse and Cart be employed for each Ward to sweep the Street to remove all sweepings and ashes from the yards. The Committee recommend that the ashes be put out either in Hoses or Barrels every Monday and Thursday morning before eight o'clock to be removed by the Cart thus employed and any deposit into the Streets from yards after the hour of eight o'clock, to be removed at the Expence of the parties forthwith or have the law put in force relative thereto. That all manure ashes and sweepings of the Streets be taken to a place on the Common under the directions of the Committee thereof

No 2<sup>d</sup>. The Committee have also had under their consideration the two respecting Statute labour, and the present mode of collecting the same, altho fully convinced that the system for the City of Halifax is an unsound one, and calling for immediate interference and alteration, your Committee have felt it to be a subject requiring the utmost care in approaching, to avoid the many difficulties to be overcome, in introducing a measure more sound more equitably born by the Citizens according to their means and to produce a greater amount for expenditure upon the Streets. Your Committee find that the amount of Statute Labour during the present year earned £1680. 0. 0

1831

October 24

Statute labour during the present year amounted £1680.0.0  
of which have been paid in work £27.0.0  
 d. d. in Cash 320.0.0 947.0.0  
 having unworked and uncollected £733.0.0

They are therefore convinced, that the present mode of taxation for the Road Service by a system of working out the compensation by labor, causes a loss to the City funds, and that payment in that manner, does not yield within from twenty five to fifty per cent of what would be, if paid with money, and particularly in regard to Horse and Cart Service. Parties have worked part of their Statute labor, causing the balance to be sought after in vain thus creating not only confusion but eventually a loss to the funds.

Your Committee are of opinion a compromise should be effected in order to attain a better system they have therefore made a scale reducing the tax, as to give the parties more unable to pay the benefit of a reduction thus reducing the City Tax in labor to 14/- Tax in money but allowing the Supervisor the liberty of having any person who may offer himself for hire, being satisfied of his inability to make payment in money of his road Tax. The Supervisor accounting at once, with the City Treasurer a person collecting the Tax.

The scale of Taxes considered by the Committee is as follows.

For a labouring man Journeyman or Apprentice	4/-
Journeyman Mechanics, Painter Servants,	3/-
House wives Stores or Shops Clerks, &c	3/-
All others without limit to age	18/-
For a Cart or Suck horse	10/- each
if two horses	17/- each
For a Carriage or Saddle Horse	24/- each
if more than one	17/- each

3rd The Committee consider that the Road Tax could be collected by the City Treasurer in the same manner that the Poor and County Rates are now collected, by inserting in the notices the Road Tax, and the election franchise of the Citizens. Should be only exercised as now by payment of Poor and County rates with road taxes added or collected by the same receipt) the question whether the City Corporations should

1851

October 24

Should retain the names for this service by an additional Salary or otherwise is for the City Council hereafter to determine.

The Committee find that very many persons are exempt from road Taxes, by being over 60 years of age who are more competent and able to pay than two thirds who are taxed.

The Committee are fully convinced that in order to attain a uniform and permanent system of Road making and improving within the City, the law relating to Statute labor should be so altered that a City Street Fund, may be substituted in lieu of ward funds.

It is also their opinion that one general Supervisor fully competent to draw plans, Specifications, grade, and give the levels of the streets, to ascertain the Courses, depths, outlets and keep a record of all sewers, public and private drains, of the situation of Gas and Water pipes, make out estimates of all work required throughout the City, a person who could be at all times referred to, as an authentic source to give levels and otherwise afford information in all the varied interests connected with the Streets, who would be entirely responsible to the City Council and to whom a competent Salary should be given with one or two foremen to oversee the workmen and carry out the instructions should be appointed. The City Council would then have an Officer at the head of all the works, as Engineer when work was required on any street the whole length of it could be made, and every ward through which the street ran, would at once and the same time benefit and the Aldermen or Commissioners of Streets position would be changed from one of anxiety labor, and responsibility to the mere duty of seeing that the public funds be appropriately applied according to estimate and Specification approved of by the Council.

Respectfully submitted,

Bond following, Bond of Mr. John Willis  
for debt due the City

Know all men by these presents that I, John Willis of the City of Halifax and Province of Nova Scotia Yeoman are held and firmly bound unto the said City of Halifax in the sum of Three Hundred pounds and twenty pounds of lawful money of Nova Scotia to be paid to the said City of Halifax, for which payment to be well and truly made I bind myself my heirs, executors and administrators firmly by these presents, Sealed with our Seal and dated the Thirtieth day of September in the year of our Lord one thousand Eight hundred and fifty one.

Whereas the said John Willis stands indebted to the said City of Halifax under a Judgment of Easter Term One thousand Eight hundred and fifty obtained in the Supreme Court at Halifax for the sum of Eight, three pounds and nine pence Debt or Damages and the sum of Seventy Seven pounds Cost, making together the sum of one hundred and Sixty pounds and nine pence, and the said John Willis has petitioned the City Council to accept an engagement for the payment thereof by instalments of ten pounds annually in consequence of his losses and difficulties, and whereas the City Council on the twenty third day of September one thousand Eight hundred and fifty one passed a resolution that the prayer of the petition should be complied with, on Condition the said John Willis should discontinue a Suit or suits brought by him against Andrew Mackinlay Esquire late Alderman and others, And Whereas the Suit referred to being the cause of John Willis versus Andrew Mackinlay has been accordingly discontinued by the said John Willis as appears by the certificate of the Prothonotary Mr. Nutting Esquire dated Thirtieth September one thousand Eight hundred and fifty one.

Now the condition of this obligation is such that if the said John Willis, his heirs, executors or administrators, shall well and truly, pay or cause to be paid into the said City of Halifax the sum of Ten pounds in each and every year, the first payment to be made on or before the first day of June in the year
