A scenic view of a river flowing through a rocky, forested landscape, likely in Canada. The river is surrounded by dense green trees and rugged, brownish-grey rock formations. The water is a deep blue, with white rapids visible in the foreground. The overall scene is a natural, wild environment.

Canada: home to 20% of the world's water, 20% of the Earth's remaining wilderness and is a wildlife stronghold.

*More than 110 different
countries recognize their citizens
right to a healthy environment.
But not Canada.*

65,916 Canadians have joined the movement.

A municipal declaration of environmental rights is a commitment to decision-making principles that will protect, fulfill and promote the right to a healthy environment.

As Canadians we do not have basic rights
to fresh air, clean water, and safe food.

WE CAN CHANGE THAT.

Join us at the

HALIFAX BLUE DOT KICK-OFF!

When? Sunday, Nov. 23rd from 1-4 pm

Where? The Atrium of the DAL Ocean
Sciences Building (1355 Oxford)

*There will be delicious food, music,
community art and more!*
