Extracts of Email Responses from Staff re: Tallahassee Recreation Centre/Tallahassee Community Centre

---

13/12/2010 12:37 pm

Good Afternoon:

The School Board is responsible for all maintenance for Tallahassee Community School. Currently the button to operate the handicap door to the Recreation Centre is located in the office. On windy days such as today the wind constantly opens the door. A work order has gone into the school board to modify the doors so they will not constantly open on windy days and install the doors handicap buttons so individuals can open the door themselves. In the meantime the office staff will continue to open the door from the office button for anyone who needs assistance.

Hope this answers your question.

Nancy

Kelly,

Yes it is HRSB responsibility. I have forwarded to our operations manager for scheduled repair. Thanks.
