Halifax District continues to see record low Comstat numbers on it's targeted Crime types. For the second Comstat in a row in 2015 there were no significant Crime Hotspots in the RCMP District. The Comstat model has contributed to a reduction in targeted crime for the 5th year in a row across the District.

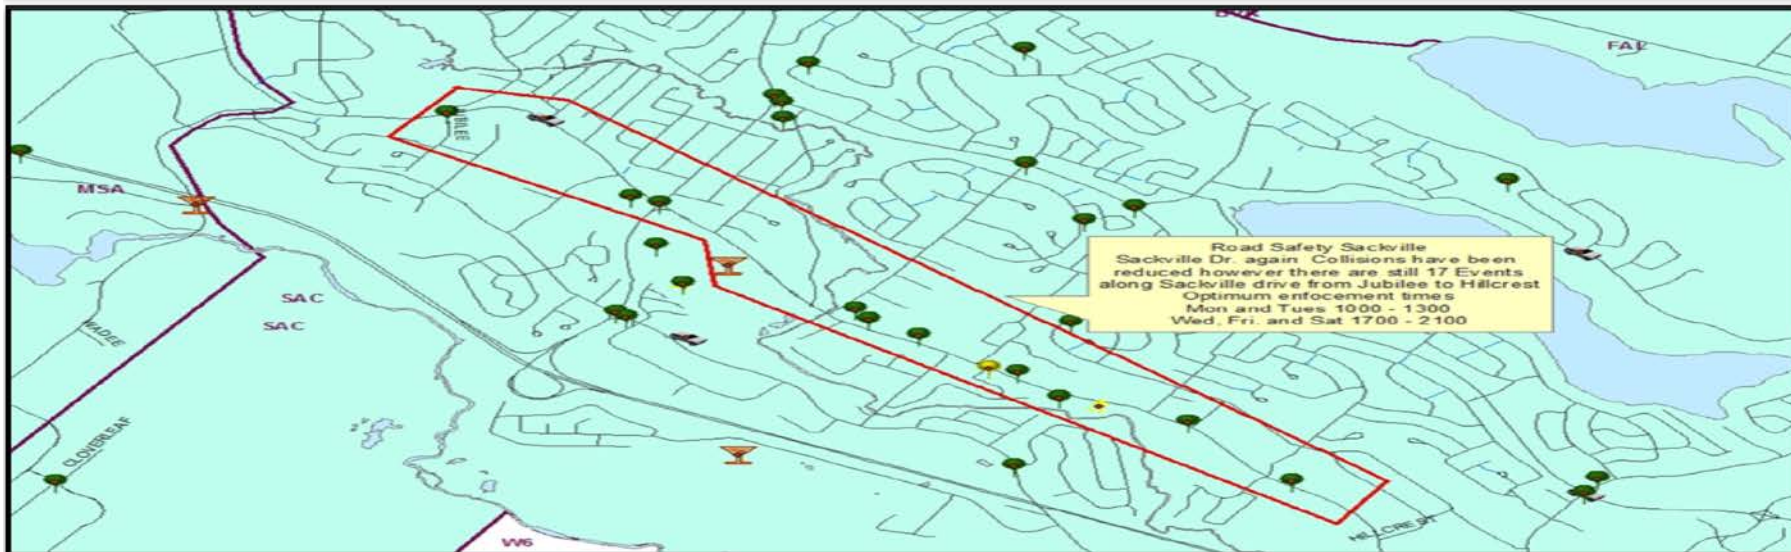

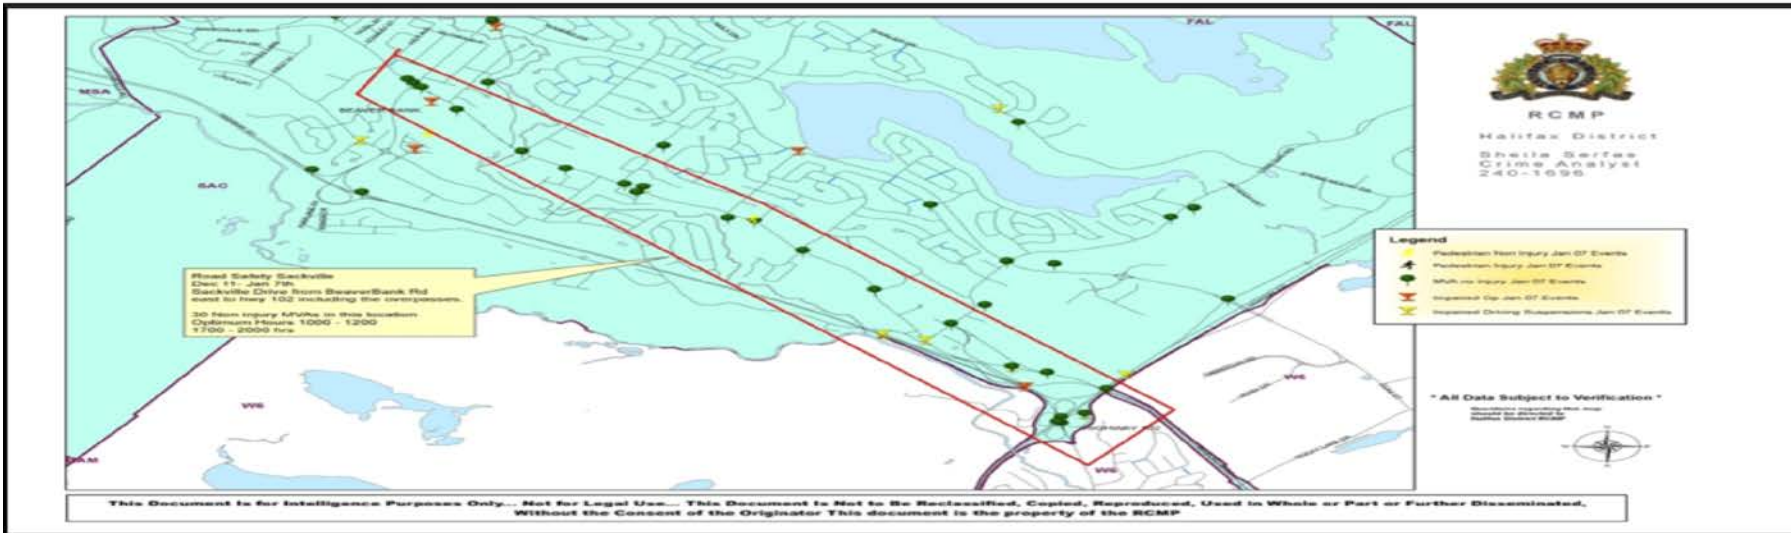

Hfx. District - Board of Police Commissioner's Dashboard - February 9th, 2015

January 2015 - Comstats

Summary

The above two Road Safety Maps show a particular stretch of roadway in Lower Sackville that had multiple road safety events in a three week period. The first map above had 30 plus road safety events including pedestrian incidents. The second map after three weeks of proactive work saw seventeen total road safety events. The District continues to monitor road safety and targeted enforcement very closely.
