Chief Executive Officer / Chef de la direction: Brock Caillon, Ottawa, ON

His Worship Mayor Peter J. Kelly and Members of Council Halifax Regional Municipality P.O.B. 1749 Halifax, Nova Scotia B3J 3A5

Dear Mayor Kelly and Members of Council:

I congratulate the Halifax Regional Municipality for achieving the fifth milestone of the Partners for Climate Protection (PCP) Program for corporate emissions. This milestone includes monitoring, verifying and reporting on corporate greenhouse gas reductions. Your municipality's completion of this milestone has been posted to the PCP website at www.fcm.ca/gmf.

We look forward to working with you in the development of the Halifax Regional Municipality's GHG reduction, monitoring, and verification reports for the community emissions component of Milestone Five.

Your efforts, and those of the growing number of PCP participants, will make a significant contribution to reducing Canada's GHG emissions. To date PCP member municipalities have recorded 1,400,000 tonnes of GHG reductions. FCM would like to thank the Halifax Regional Municipality for its ongoing support in sharing the results of this success.

Muni Ahlawat, PCP Program Officer, will contact Richard MacLellan, Manager, Sustainable Environment Management Office, to discuss how the successes of Halifax Regional Municipality can be shared with other municipalities just starting to tackle climate change. Should you have any questions, Mr. Ahlawat can be reached by telephone at (613) 907-6346 or by e-mail at pcp@fcm.ca.

Yours sincerely,

[Handwritten signature of Hans Cunningham]

Hans Cunningham President
