Dear Minister Streach,

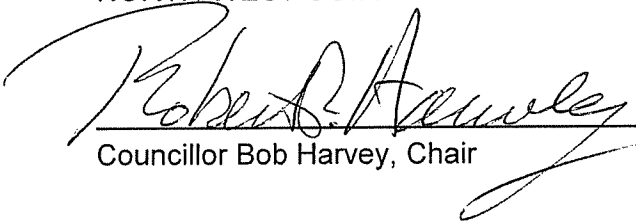

The North West Community Council wishes to commend the Department of Community Services for the recent redevelopment of the former Cobequid Health Centre on Memory Lane in Sackville.

Recently, concerned residents have brought to our attention the current condition of the building's brick facade. Apparently, new brick has been used adjacent to old brick which has resulted in an unfinished look to the building. The residents feel that since the building is located at the "front door" to the community, it would be best if the building had a more finished look.

We look forward to any further information your department may be able to provide in regard to the redevelopment of the former Cobequid Health Centre and the issue raised by the community.

Yours truly,

NORTH WEST COMMUNITY COUNCIL

Councillor Bob Harvey, Chair
