Sir,

The CF will support the Open House and Natal Days 2007 with many events including two CF aircraft static displays on base and a CP140 Aurora flypast. I require a letter from your office (ala the annual Remembrance Day requests) asking us to conduct a CP140 flypast, 1400 hrs (2 PM) at safe altitude under ATC control down and back up Halifax Harbour. This request is late and I apologize for that, however the flypast will occur, weather permitting. I require the letter to make the request and tasking official.

Please fax letter to me at 427-0236 so I may pass along to higher authority.

Thank you.
