

Halifax Regional Council
April 28, 2009
May 5, 2009

TO: Mayor Kelly and Members of Halifax Regional Council

SUBMITTED BY:

Dan English, Chief Administrative Officer

Frank A. Beazley, Chief of Police

DATE: March 10, 2009

SUBJECT: By-Law A-300 Feeding of Waterfowl & Pigeons Section

RECOMMENDATION REPORT

ORIGIN

Pursuant to Section 13(1) of By-Law A-300, Regional Council can determine, by Administrative Order, site specific locations on Municipal owned property where no person shall feed waterfowl and pigeons.

Currently, Administrative Order 11 does not identify any locations where citizens are prohibited from feeding waterfowl and pigeons.

RECOMMENDATION

It is recommended that Regional Council approve the amendment to Administrative Order #11 (attached as Appendix A).

BACKGROUND

Dartmouth By-Law W-201, Respecting the Feeding of Waterfowl was repealed on April 1, 2008. This was a result of harmonizing animal related by-laws from the former Municipal units into By-Law A-300, Respecting Animals and Responsible Pet Ownership, effective April 1, 2008.

Repealed By-Law W-201 stated that no person shall feed or place food for waterfowl to consume within 50 feet of the shores of Lake Banook and Little Albro Lake.

DISCUSSION

By-Law A-300, Section 13, Feeding of Waterfowl and Pigeons states:

- "(1) No person shall feed waterfowl or pigeons at site specific locations as determined by Council or Community Council on property owned by the Municipality as prescribed by an Administrative Order.*
- (2) Subsection (1) shall not apply to Municipal staff or contractors on behalf of the Municipality who feed waterfowl or pigeons on property owned by the Municipality."*

Regional Council approved Administrative Order 11 which currently does not identify any site specific locations. Therefore, the attached list of site specific locations has been identified to be included in Administrative Order 11. These locations identified on the attached list are bordered by property owned by the Municipality as Section 13 of By-Law A-300 does not include the feeding of waterfowl on private property.

The rationale for this provision is based on the negative impact that the feeding of waterfowl and pigeons can have on both humans and waterfowl. Examples of these are highlighted below:

- an increase in waterfowl populations concentrated in small areas will decrease water quality and diminish the surrounding landscapes due to the high levels of fecal coliform and nitrogen found in waterfowl waste.
- artificial feeding of waterfowl can impact their diets resulting in malnourishment, choking, and an increased susceptibility to disease, disrupt their migratory instincts, and decrease their fear of humans causing them to become a nuisance and danger.

BUDGET IMPLICATIONS

Municipal Operations budget is structured to respond to requests for signage as required and within reasonable limitations. Placing signage at the attached locations will be absorbed by existing operational funding.

FINANCIAL MANAGEMENT POLICIES / BUSINESS PLAN

This report complies with the Municipality's Multi-Year Financial Strategy, the approved Operating, Capital and Reserve budgets, policies and procedures regarding withdrawals from the utilization of Capital and Operating reserves, as well as any relevant legislation.

ALTERNATIVES

1. Council not approve the amendment to Administrative Order 11. This alternative is not recommended.
2. Council modify the specific locations from the list brought forward by staff. This alternative is not recommended.

ATTACHMENTS

Appendix A - Amendment to Administrative Order Number # 11

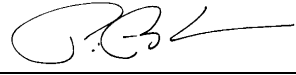

A copy of this report can be obtained online at <http://www.halifax.ca/council/agendasc/agenda.html> then choose the appropriate meeting date, or by contacting the Office of the Municipal Clerk at 490-4210, or Fax 490-4208.
