Date of Council Meeting: May 30, 2006

Subject: Armdale Rotary

Request:

Please include the above item on the May 30, 2006 Regional Council agenda.

Reason:

Given that the Province is mandating the changes to the Armdale Rotary/Roundabout/Circular roadway with traffic lights, and given that there is increased growth outside the core and many of these residents will travel through the Armdale Rotary on a daily basis. And, further, that there were numerous concerns raised at the public hearing for the Regional Plan, from thirteen residents who live in and around the Westmount and Chebucto Road area who took the time to address this important issue, and that Councillor Fougere has raised concerns as well, we need to find an effective solution.

I will ask that staff come forward with a solution that will work better than the proposed reversing lanes and widening of Chebucto Road. I would like to know what the alternatives are to ensure safe, effective flow without enticing more drivers than the usual patterns to utilize the Armdale Rotary to access Peninsular Halifax. This report could include, but not be limited to a parclo, tunnel, bridge and overpass.

I would like this response as:

- Email to Mayor, Council and Municipal Clerk's Office
 Memo to Mayor, Council and Municipal Clerk's Office
 Recommendation Report to Community Council Regional Council
