TO: Chair and Members of Environment and Sustainability Standing Committee

SUBMITTED BY: Original Signed
Peter Stickings, Acting Director, Planning & Infrastructure

DATE: August 3, 2012

SUBJECT: Proposed Amendment to Administrative Order 15, Respecting License, Permit, and Processing Fees

ORIGIN

This amendment originates from Staff.

RECOMMENDATION

It is recommended that the Environment and Sustainability Standing Committee recommend to Regional Council to approve a consolidated processing fee of \$150 for the installation of solar collection systems.

BACKGROUND

Following engagement with industry and staff of the Municipal Compliance division, a challenge to the administration of permits required for the installation of solar collection systems was identified. In order to respond to industry permitting requests, which is a building code requirement, multiple permit fees and processes are required to be completed. This was identified as an unnecessary burden to effective and efficient internal administrative practices.

DISCUSSION

To simplify the challenge, and encourage compliance with Building Code regulations, staff is recommending a revision to Administrative Order 15, Respecting License, Permit and Processing Fees. The revision is to create a single consolidated fee of \$150 specific to the installation of solar collection systems. Current requirements include individual fees for each of the development, plumbing, and building permits related to these installations. This consolidated processing fee will facilitate the establishment of a single business process supporting solar collection systems.

Recommended addition to Administrative Order (Attachment One):

<u>20. Solar Collection System Permit</u>	<u>Processing Fee</u>
<i>Consolidated processing fee for the development and construction inspections for the installation of Solar Collection Systems</i>	<i>\$150</i>

BUDGET IMPLICATIONS

The revenue from the fee will go to C430, Permits and Inspections. It would be difficult to speculate on the value of the increase or change in revenue. A minor revenue increase could be expected.

FINANCIAL MANAGEMENT POLICIES / BUSINESS PLAN

This report complies with the Municipality's Multi-Year Financial Strategy, the approved Operating, Project and Reserve budgets, policies and procedures regarding withdrawals from the utilization of Project and Operating reserves, as well as any relevant legislation.

COMMUNITY ENGAGEMENT

Consideration of a streamlined business process and a consolidated fee resulted from engagement with Solar Nova Scotia (industry association), solar installations and manufacturers of solar collection systems in the Halifax Regional Municipality.

ENVIRONMENTAL IMPLICATIONS

This action will assist with the increased deployment of renewable technology through increased cooperation with industry business interests.

ALTERNATIVES

None recommended
