Date of Council Meeting: Tuesday, July 21, 2015	
Subject: Street Traffic Control Annual Pavement Marking (Painting)	
Motion for Regional Council to request a staff report that: <ul style="list-style-type: none">- explains the current street traffic control pavement paint marking policy and procedures as to why the standard is to paint all pavement markings once per year;- explains the environment regulatory factors that impact the types of paint used, and further the quality and the application of paint required to ensure maximum durability;- explains the Traffic Authority's role, responsibility and, use of and adherence to the national standards;- provides options for Regional Council's consideration that could result in street pavement paint marking being done in a more accelerated timeline i.e. more equipment, different paint, etc;- and that this report come back to Regional Council in advance of and for consideration during the 2016/17 budget deliberations.	
Reason: To better understand why traffic street traffic control painting is not maintained to a level that helps ensure safe traffic controls are effective year round, and to evaluate options to help better ensure safe traffic controls are effective year round.	
Outcome Sought: Year round effective (visible) street traffic control pavement marking.	
<i>Councillor Steve Craig</i>	<i>District 15, Lower Sackville</i>
