

## Councillor Request for Information

August 18, 2003

**Added Item for Agenda of Council Meeting August 19, 2003**

**Subject: Gateway Quarry Operation**

**Request:**

I would like to have the above item added to the agenda of the Regular Council Meeting to be held on August 19, 2003,

**Reason:**

I will be requesting a staff report on any HRM authority over the operation of quarries; the standards for blasting, (which are be included in the review of our blasting bylaw), and the extent to which their operation is controlled by the Planning Designations and Guidelines.

As well, I will ask for a staff report specifically concerning the Gateway Quarry operation on Kearney Lake Road, advising how much farther it can be expanded and how much longer it will be in operation.

**I would like this response as** a staff report to Regional Council
