TO: Mayor Kelly and Members of Halifax Regional Council

**SUBMITTED BY:** 

George McLellan, Chief Administrative Officer

Dan English, Deputy Chief Administrative Officer

**DATE:** September 9, 2005

SUBJECT: By-Law T-135: Amendment to Deal With Taxi Fares

#### **ORIGIN**

Notice of Motion during the September 6, 2005 Regional Council Meeting, to introduce a motion to move first reading to amend By-Law number T-108, Schedule 4, Taxi Fare Rate Increase - Halifax International Airport. The purpose of which is to bring forward the rate increase in all zones of 14% as recommended by the Airport Authority.

#### **RECOMMENDATION**

It is recommended that:

- 1. Waive the requirement for A Notice Of Motion pursuant to Rules Of Procedure;
- 2 Give First Reading to By-Law T-135 attached as Appendix A to this Report.

The Municipal Clerk's Office received correspondence (attached as Appendix B) from David Snow, Manager Operations, Halifax International Airport Authority (HIAA) on September 6, 2005.

- 2 -

Taxi operators representing the licensed drivers and owners at the Halifax International Airport presented the Airport Authority with a proposed increase of approximately 14% to the zone rates. The Airport Authority views this proposed increase as being reasonable and supports their proposal.

In addition to this request, because of the large increases in the cost of gasoline, HRM has been approached to consider increases to the general fares. As well, there has been a request to amend the schedule dealing with the fares at the Port of Halifax because of the changes in the US/Canada exchange rate

Currently, all taxi fares are established by By-Law T-108. To change these fares requires that Council each time go through the formal process for amending a By-law, namely, Notice of Motion, First Reading, Advertising for a Public Hearing, the Public Hearing itself, Second Reading and finally Advertising that the By-Law has been amended.

#### **DISCUSSION**

There has not been a change in the taxi fares at the Airport since June, 2000 and since then the price of fuel has risen 59%. The general fare was last increased in November 2003 and there has been a significant increase in fuel costs since then as well. There has also been a significant change in the US/Canada exchange rate since the Port schedule of rates was last amended. All of these factors would justify a change in all the fares at this time.

Legal staff have reviewed the provisions of the *Motor Vehicle Act*, the *Interpretation Act* and the *Municipal Government Act* and have formed the opinion that Council does not have to set taxi fares by by-law but could do so by administrative order.

Therefore, rather than limiting itself to Councillor Walker's Notice of Motion of September 6, 2005 which would just deal with the airport fares, staff is recommending that Council adopt By-Law T-135 attached as Appendix "A" to this report. These amendments to By-Law T-108 would remove the current fares from the Taxi and Limousine By-Law altogether and would provide for the fares being set thereafter by Administrative Order. These amendments would be considered at a public hearing on October 4, 2005 and could receive Second Reading on that same date. It would be staff's intention to also cause a new Administrative Order 39 to be brought forward for consideration and adoption on that same date. That Administrative Order would deal with all three fare issues, the general fare as well as the flat rates for the Airport and the Port.

of Motion is set by the Council's Rules of Procedure rather than the *Municipal Government Act*, this is permissible. (The other procedural requirements for the adoption of a By-law are set by the MGA and therefore cannot be waived by Council). This approach has been discussed with Councillor Walker and is acceptable to him.

#### **BUDGET IMPLICATIONS**

There are no budget implications as a result of this report.

#### FINANCIAL MANAGEMENT POLICIES / BUSINESS PLAN

This report complies with the Municipality's Multi-Year Financial Strategy, the approved Operating, Capital and Reserve budgets, policies and procedures regarding withdrawals from the utilization of Capital and Operating reserves, as well as any relevant legislation.

#### **ALTERNATIVES**

- 1. Regional Council could merely proceed to begin the process to implement the fare increase requested by the Airport by amending B-Law T-108 to do so. This approach is not recommended since it would only deal with a part of the fare issue and would not deal with the procedural challenge for future fare changes.
- 2. Regional Council could approve a different increase, however the HIAA would be required to review and provide their feedback since the rates of the HIAA must be consistent with By-Law T-108..
- 3. Council could do nothing and maintain the status quo. Staff do not recommend this approach. Staff feel that given the significant increase in the price of gasoline, the taxi industry does need an increase in the permitted fares. Even if Council ultimately does not feel a fare increase is justified, staff feel that the process for setting fares should be changed.

# Re: Taxi Fare Rate Increase – Halifax International Airport

Taxi operators, representing the licensed drivers and owners at Halifax International Airport, have presented the Airport Authority with a proposed increase in the zone rates, as published in the Halifax Regional Municipality By-Law Number T-108, Schedule 4.

The justification presented by the representatives was that a rate change has not occurred at the Airport since June of 2000, despite an increase to the meter and drop rate in the HRM in November of 2003 and secondly the escalating cost of conducting business.

The price of fuel alone has risen by 59% since 2000, with no relief in sight and this does not account for the escalating cost of vehicle insurance, maintenance and licensing fees, which all have placed hardship on the Airport operators.

The taxi operators have proposed an average increase to all zones of approximately 14%. For example: a fare from the Airport to Halifax city center would increase from \$41.00 to \$47.00. The attached schedule of fares has been revised to reflect this increase.

The Airport Authority views this proposed increase as being reasonable and supports their proposal.

Yours truly,

David Snow
